

Retrofit Shower Floors

With Fit-Flo Drain

Manufactured from Swanstone solid surface
(see page 2 for detailed information)

Recommended for high use traffic areas and commercial surfaces

SWANSTONE SHOWER FLOORS

WARRANTY

Limited Lifetime – Residential
Limited 10-year – Commercial

FEATURES

- Reinforced solid surface means color and texture run all the way through and cannot wear away
- Will not mold or mildew, no grout to clean
- Coordinates with Swanstone shower and bath systems
- Pebbled, slip-resistant surface
- Without expensive plumbing re-work, this floor can be installed in the same area once occupied by a standard bath tub.

Model	Nominal Size	Rough-In Dimensions			
		A	B	C	D
SR-3260L*	32" x 60"	60-3/8"	32-3/16"	8-3/16"	15-3/16"
SR-3260R**	32" x 60"	60-3/8"	32-3/16"	8-3/16"	15-3/16"

*Retrofit (left side drain) **Retrofit (right side drain)

IMPORTANT: Rough-in dimensions are provided for reference only. You must measure the actual shower floor and check local building code requirements before construction of the stud wall.

Retrofit Shower Floor – left side drain

Retrofit Shower Floor – right side drain

- Seafoam (074)
- Wild Oat (096)

MAINTENANCE AND CLEANING INFORMATION

Everyday cleaning should consist of liquid cleaners such as Dow or Lysol foaming bubbles, Top Job, Mr. Clean or liquid Lysol along with a sponge. Remove hard water stains, mineral or soap build-up with scale removers such as Lime-Away. If necessary, you may use an abrasive cleaner such as Ajax or Comet with a nylon brush or pad to remove build up on the pebble surface. Do not use steel wool or a wire brush. An abrasive cleaner, brush or pad will not remove the finish because the color is molded throughout. However, it is best to avoid the higher sheen surface of the floor. Prolonged scrubbing of this area could cause it to look dull and promote soap build up.
