

The image displays a Chlorine Institute Emergency Kit (EK-10) for chlorine gas cylinders. The kit is organized on a white surface, showing its various components. At the top is a black plastic carrying case with yellow labels that read "CHLORINE INSTITUTE EMERGENCY KIT - EK-10" and "FOR CHLORINE TON CONTAINERS". Below the case is a silver metal repair stand with a yellow label "28C". To the left of the stand is a yellow torque wrench labeled "4A" and a yellow socket labeled "4A". In the center are several black O-rings and gaskets, a silver metal valve, and a yellow bag of dry cloth. To the right of the stand is a yellow socket labeled "12A" and a yellow valve labeled "12A". Below the stand are several yellow-handled tools, including a wrench labeled "101", a torque wrench, and a yellow bag of dry cloth. The kit is designed for emergency repairs to chlorine gas cylinders.
