Connect 2 Boxes in Tandem

The TuffGuy Box can easily be broken down, and fit in any standard pick-up

Manufactured by
Kundel

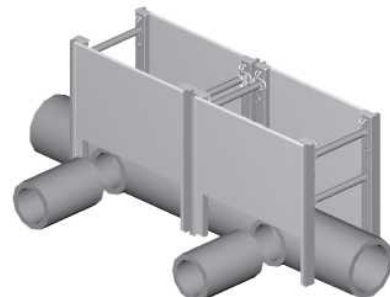

**Simple
Modular
Assembly**

Drop on can be used to close off an end. Both 2' openings for crossing utilities or full length coverage are available.

Panel Spacers can be inserted to allow 2' opening on sidewall to permit crossing utilities or tap-in and still protect workers in the TuffGuy Box.

Your unique job has endless possibilities with the TuffGuy Box.

Note: TuffGuy must be assembled before use.
