

## Under Counter Drinking Water filter AQ-4501

AQ-4501.55N shown

Our under counter drinking water filter offers Aquasana's unbeatable drinking water filtration technology in a discreet package that blends effortlessly into your kitchen. With a quick and easy product installation, you can enjoy the convenience of always-available filtered water from a dedicated faucet in your sink. With three beautiful faucet options to choose from, it's easy to match your unique kitchen aesthetic.

**Performance** — Aquasana Claryum™ Filtration Technology features three distinct stages, including activated carbon, ion exchange and sub-micron filtration. This unique combination forces water under pressure over more than two million square feet of surface area of contaminant grabbing filtration material. Claryum's selective filtration technology reduces a comprehensive list of contaminants; reduces odor; and improves the taste of tap water while also preserving healthy minerals such as calcium, potassium and magnesium.

**Value** — Aquasana is the best value, with water costing typically half that of the leading pitcher filter water.

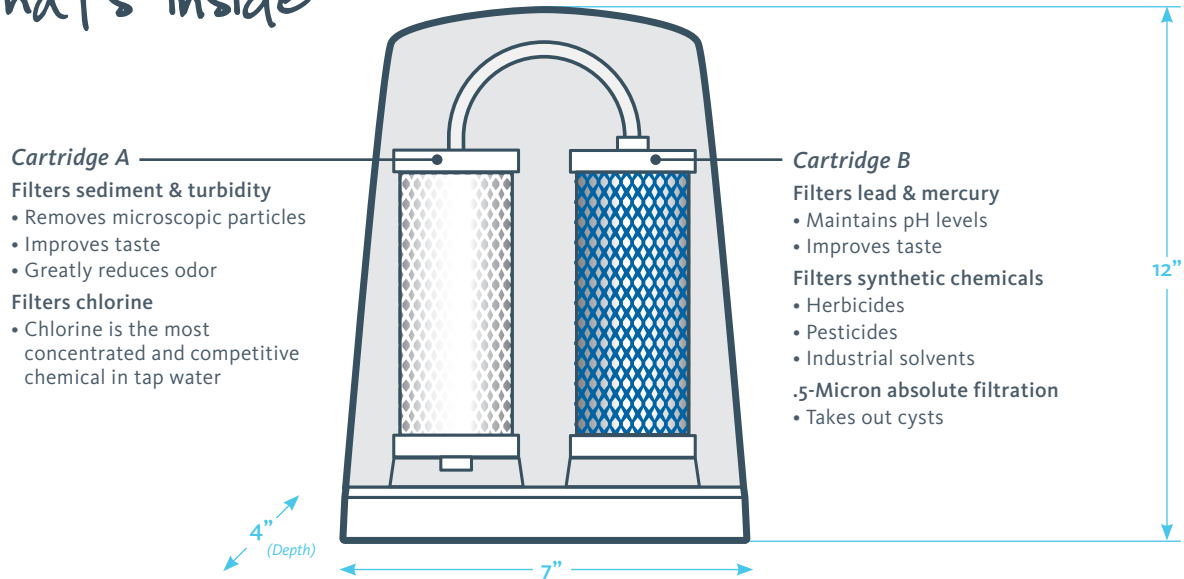

**Convenience** — Your Aquasana water is readily available with the convenience of a tap. And you only have to change the filter twice a year.

Made in the USA.

## What's inside

## Pure Satisfaction

All Aquasana products offer a 90-day 100% money back guarantee. (A 1 year warranty is included with this product, which covers defects in materials and workmanship.) If for any reason you are not satisfied with your purchase, simply call us, or the dealer you purchased from, for a full refund upon return.

This filter system is designed and tested for use with genuine Aquasana parts including replacement filters and all hardware. Use of parts from other manufacturers may result in loss of contaminant reduction performance, system damage or failure. Use of parts from other manufacturers will also void your warranty. Contact your Ferguson dealer for all replacement parts.
