Rust Out®

Water Softener Cleaner/Iron Remover

Maintain performance of softeners on iron bearing water.

Pro Rust Out chemically removes iron and rust buildup that coats the resin bed and fouls the water softener. Pro Rust Out changes rust and iron into a clear solution that easily rinses away and does not contain harsh or abrasive chemicals that damage fiberglass, porcelain or acrylic finishes. The advanced formula contains more than five chemicals that are formulated to clean, restore and maintain the life of water softeners. Pro Rust Out can also be used to clean tough rust stains from toilets, sinks, tubs, white clothes and exterior surfaces.
Available in 4 oz, 1.5 lb, 5 lb & 50 lb sizes.

Applications

Water Softeners:

First Application: Dissolve 1 1/2 cup in 1/2 gallon cold water. Pour directly into brine well (softeners with no brine well, pour directly into salt tank when salt level is low). Manually regenerate softener. Repeat for heavily fouled unit.

Preventative Maintenance: Add 1/2 cup for every 40 lbs. of salt added to brine tank. Layer to ensure a continuous dose with each regeneration.

General Purpose Cleaning: Dishwashers, dishes, glassware, white clothes or fabrics, and water softeners – follow directions on the back of the package.

Benefits to the User

- Rust is easily rinsed away
- Does not contain harsh or abrasive chemicals
- Multipurpose cleaner for tough iron stains
- Out performs the competition on rust

Technical Information

- Pro Rust Out is a white powdered mixture with a sulfur odor.
- Rust Out is formulated to chemically change rust into a clear, soluble state that easily rinses away. Fe3 to Fe2 (Ferric to Ferrous).
- Do not mix with other chemicals
