PVM9179SF/EF

GE Profile™ Series 1.7 cu. ft. Convection Over-the-Range Microwave Oven

Dimensions and Installation Information (in inches)

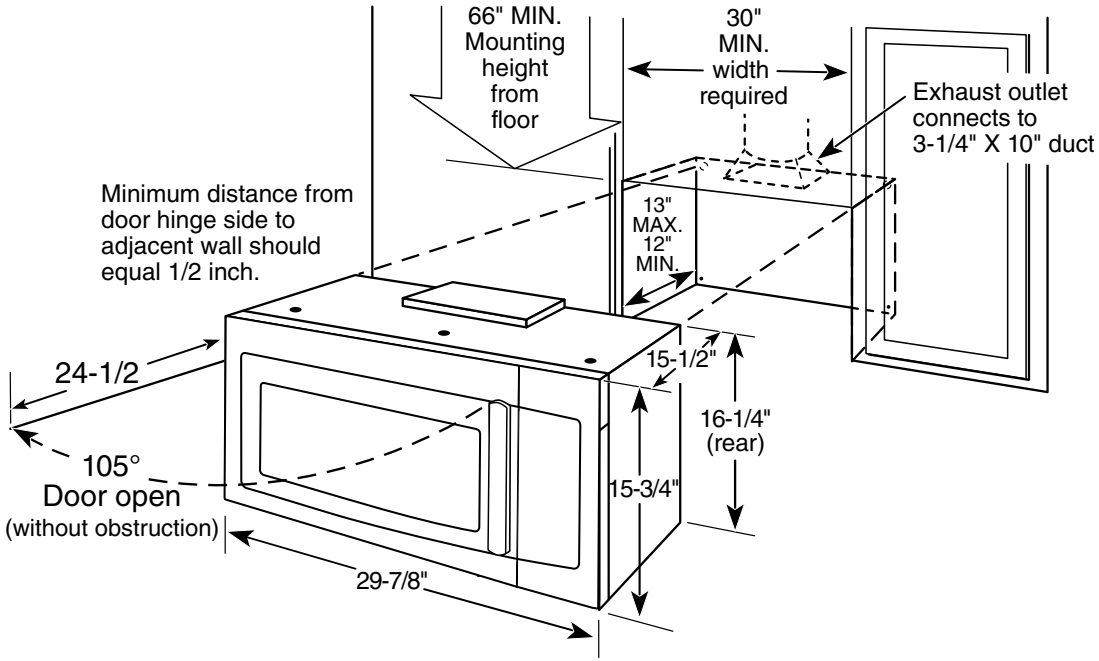

Note: Requires 120V grounded outlet. Electrical receptacle must be located in cabinet above Spacemaker microwave oven. No additional wiring, venting or cabinet rebuilding necessary in many cases. Complete detailed, easy-to-follow installation instructions and convenient full-size templates are packed with the Spacemaker microwave oven.

Important Information: When installing the Spacemaker microwave oven over a range, allow minimum of 2" from bottom of Spacemaker microwave oven to top of range backguard to allow for removal of light covers.

Ventilation Options: The Spacemaker microwave ovens are designed for adaptation to the following three types of ventilation:

- Outside exhaust (vertical – as shown)
- Outside exhaust (horizontal)
- Recirculating (non-vented ductless – see Filter Kit drawing)

Installation Information: This information is not intended to be used for installing unit described. Before installing, consult installation instructions packed with product/kit for current dimensional data.

PVM9179SF/EF

GE Profile™ Series 1.7 cu. ft. Convection Over-the-Range Microwave Oven

Dimensions and Installation Information (in inches)

Hood Exhaust Duct: Outside ventilation requires a HOOD EXHAUST DUCT. Read the following carefully.

Exhaust Connection: The hood exhaust has been designed to mate with a standard 3-1/4" x 10" rectangular duct. If a round duct is required, a rectangular-to-round transition adaptor must be used. Do not use less than a 6" diameter duct

Rear Exhaust: If a rear or horizontal exhaust is to be used, care should be taken to align exhaust with space between studs, or wall should be prepared at the time it is constructed by leaving enough space between the wall studs to accommodate exhaust.

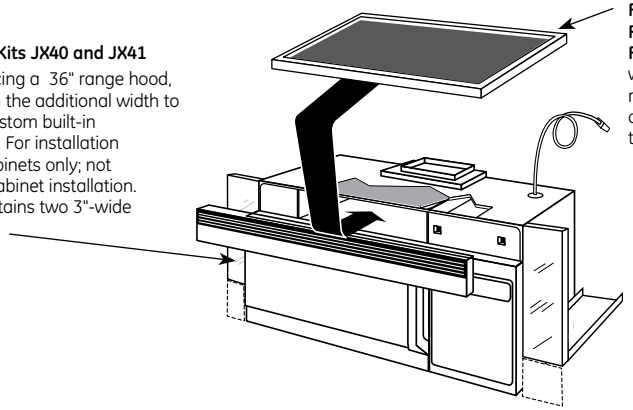

Maximum Duct Length: For satisfactory air movement, the total duct length of 3-1/4" x 10" rectangular or 6" diameter round duct should not exceed 120 equivalent feet.

Elbows, Transitions, Wall and Roof Caps, etc., present additional resistance to airflow and are equivalent to a section of straight duct which is longer than their actual physical size. When calculating the total duct length, add the equivalent length of all transitions and adaptors plus the lengths of all straight duct sections. The chart below shows the approximate feet of equivalent length of some typical ducts.

Duct	Equivalent Feet
A. Rectangular-To-round Transition Adaptor	5 ft.
B. Wall Cap	40 ft.
C. 90° Elbow	10 ft.
D. 45° Elbow	5 ft.
E. 90° Elbow	25 ft.
F. 45° Elbow	5 ft.
G. Roof Cap	24 ft.

Optional Accessories (Available at additional cost)

Filler Panel Kits JX40 and JX41
When replacing a 36" range hood, this kit fills in the additional width to provide a custom built-in appearance. For installation between cabinets only; not for end-of-cabinet installation. Each kit contains two 3"-wide filler panels.

Filter Kit JX81D–Recirculating Charcoal Filter Kit To be used when the Spacemaker microwave oven cannot be vented to the outside.

GE Profile™ Series 1.7 cu. ft. Convection Over-the-Range Microwave Oven

Features and Benefits

- 3 ovens in 1 - Expand your cooking versatility with three ovens in one
- Convection cooking - Enjoy even baking without turning the pan
- 1.7 cu. ft. capacity - 1000 watts (IEC-705 test procedure)
- Fast Bake - Convection and microwave cooking combine to deliver fast oven-quality results
- Sensor cooking controls - Automatically adjusts time and power
- Auto Recipe conversion - Converts standard recipes to convection settings
- Warming oven - Keeps foods hot and ready to serve
- Removable oven rack - Allows you to cook large quantities of your family's favorites
- Three-speed, 300 CFM Venting - Allows adjustment of ventilation levels according to your needs
- Easy-set control dial - Adjust time and temperature settings
- Model PVM9179SFSS - Stainless steel
- Model PVM9179EFES - Slate
