

NO C-WIRE? NO PROBLEM.

Power Connected Thermostats With The C-Wire Adapter.

C-Wire Adapter

C-Wire Adapter

Quickly and easily power Wi-Fi enabled connected thermostats

Today's homeowners want a connected home experience. Honeywell is making it easier than ever to transition your customers from a non-connected to a connected thermostat. The C-Wire Adapter allows you to easily add a wire at the equipment during Wi-Fi thermostat installations when a common wire is required – without having to run new wires.

Application Friendly

- Use for Wi-Fi, 24v thermostats when a common wire is needed but not present
- Works with most Wi-Fi thermostats, including all Honeywell connected models
- Easily meet the growing demand for connected solutions in retrofit applications

Cut Installation Time

- Wire is included, so there's no need to run new wire to the equipment
- No tools needed
- Easy push terminals with clear labeling and preconfigured wire leads
- Simple adhesive mount

Clean Design

- Permanently closed cover conceals internal components and reduces noise
- Aesthetically pleasing look

OS Number

THP9045A1098/U

Description

C-Wire Adapter
