

Installation Instructions

Wind Baffle Part # WB-PA2

WARNING! MOVING PARTS. INCORRECT HANDLING COULD LEAD TO DEATH OR INJURY!

IMPORTANT! Outdoor Unit should be installed with back coil surface facing a wall or oriented so the wind does NOT blow directly on to the back coil surface. Do not install this product where there is any obstacle at either side or above the outdoor unit. If the discharge air is obstructed the air may be short cycled.

Steps:

1. Remove 5 screws holding fan guard in place.
2. Slide fan guard into wind baffle lining up the stopper tabs.
3. Position wind baffle/fan guard and line up with pre-punched holes.
4. Install all 5 screws and tighten securely. Repeat with all baffles.

ENSURE BAFFLE OUTLETS WILL NOT BE BLOCKED OR OBSTRUCTED !

Note: When two fan outdoor unit is used, two wind baffles are required.
Install lower baffle first for easier installation.
