13	Clean Out Access Cover	243-20299-00	243-20299-00	243-20299-00	243-20299-00	243-20299-00

* A combination temperature and pressure relief valve is required by code as a protective device. It is not normally supplied by the tank manufacturer as original equipment. It is traditionally provided by the installer and is shown here for replacement parts purposes. The T&P valve for these storage tanks must be rated for the BTU input of the heater of the system where installed. P/N 230-33630-04 T&P valve 1" NPT female thread rated for 750,000 BTU.

A420 Anode may need to be cut to length
