

# GI Solutions

Supporting your continuum of care

Presource® Products and Services

**CardinalHealth**  
*Essential to care™*

# Cardinal Health provides comprehensive solutions to support your continuum of care in the gastrointestinal suite.

We are proud to offer a selection of high-quality products, including endoscopy kits, to help ensure efficiency and convenience in your procedures. Our kits include products that comply with the SGNA's Standards of Infection Control in Reprocessing of Flexible Gastrointestinal Endoscopes by preparing the endoscope for bedside cleaning, as well as cleaning in the reprocessing area.

Our portfolio allows you to effectively manage your gastrointestinal (GI) suite across the continuum of care. This catalog showcases our high-quality, cost-effective products available as you take patients through **pre-operative, peri-operative** and **post-procedural areas of care**. Take a look at how you can standardize and reduce costs on the products you use every day.

As you browse the catalog by pre-, peri- and post-procedure, you can review our products available. Many products are utilized through more than one area of care, but this catalog showcases products in their most frequently-used area. You will quickly notice Cardinal Health™ products span the entire care continuum, giving you the highest-quality, most cost-effective products, so you can focus on what matters most – your patients.

---

## **Page 4: Utilize kits to improve efficiency in your facility!**

---

Help increase efficiency and convenience in your GI suite with Cardinal Health™ endoscopy kits, which are highlighted on page four in this catalog. Cardinal Health offers both standard and custom endoscopy procedure kits, which support the SGNA, ASGE and multi-society recommendations on infection control in the GI lab.

# Increase efficiency and convenience in your GI suite

## with endoscopy kits from Cardinal Health

Our kits include products that comply with the SGNA's Standards of Infection Control in Reprocessing of Flexible Gastrointestinal Endoscopes by preparing the endoscope for bedside cleaning, as well as cleaning in the reprocessing area. Cardinal Health offers both standard and custom endoscopy procedure kits.

**Reduce time and expense of ordering, stocking and picking items for your GI procedures and reduce waste with Cardinal Health endoscopy kits, including:**

### Multi-Purpose Scope Transport Bag

with drawstring ties to safely transport endoscopes for reprocessing

- Fluid resistant material
- Padding absorbs and protects
- Helps prevent contamination during transport
- Dual purpose biohazard/used equipment tag to keep GI personnel informed and safe
- Utilized as back procedural tray cover

### ScopeValet™ ECO-Bedside Cleaning Kit

designed for convenient, bedside use to remove contaminants from the outside sheath of scopes and internal channels

- Wide-mouth tray design and securely fitting lid to help prevent spillage of enzymatic solution during preparation
- Biodegradable\*, plant-based, light weight container
- Contoured sponge conveniently prefilled with enzymatic detergent to remove soils from insertion tube of scope

### Double-Ended Cleaning Brush

to safely clean inside channel of endoscopes

- Double-end pull through design, helps ensure maximum channel cleaning coverage
- Unique, rounded tip helps to prevent damage to the inside channels of scopes

## Standard Endoscopy Kits

### Endo Scope Clean Kit—END99ESCKB 36 kits per case

# Pre-operative - Blood Pressure Cuffs

## EcoCuff™: The optimal single patient use cuff

### Simplify inventory by reducing part numbers

Once these FlexiPort® fittings are attached to your blood pressure devices, cuffs without tubes and connectors can be purchased—reducing part numbers.

Port-1

Port-2

No tubes or connectors attached to cuff

Option 1	Option 2	Option 3
Designed to reduce cuff materials.	Attach above fittings directly to your current device tubing.	Buy Cardinal Health™ disposable cuffs with tubing and FlexiPort® connectors to fit your blood pressure devices without making changes.

# Pre-operative - Glove Box Holders

## Keep your gloves within easy reach

We realize that you are very particular about the workspace inside your lab. Our glove box holders offer a variety of configurations to create a system that is right for your laboratory's needs while keeping your counter space free of clutter.

### Vertical, Top Load, Glove Box Holders

Our acrylic glove box holders have a foam insert to provide a snug fit and extra support for removal of lightweight gloves from their cardboard boxes. The holders may be mounted in the most convenient location for easy access. There are four models to hold one, two, three or four glove boxes. Two holes and double-sided tape are provided for mounting to the wall or cabinets.

Cat. No.	Description (H x W x D)	Color
<b>S1389-24</b>	Single box holder, 5 x 11½ x 4 in.	Clear
<b>S1389-27</b>	Double box holder, 10 x 11½ x 4⅞ in.	Clear
<b>S1389-30</b>	Triple box holder, 15¼ x 11½ x 4 in.	Clear
<b>S1389-33</b>	Quad box holder, 19 x 11½ x 4 in.	Clear

## Flexal® Nitrile Exam Gloves

### Powder-Free Non-Sterile Nitrile Examination Gloves

Flexal® Nitrile Exam Gloves offer an alternative to latex and other nitrile gloves currently available in the market today. They provide tactile sensitivity and protect the hands from potentially infectious materials.

#### Features and Benefits:

- Textured fingertips enable grip even when wet
- Helps deliver savings over most other nitrile exam gloves
- Tested for use with various lab chemicals and chemotherapy drugs<sup>1</sup>

## Flexal® Nitrile Exam Gloves

### Powder-Free Non-Sterile Nitrile Examination Gloves

Flexal® Nitrile Exam Gloves offer an alternative to latex and other nitrile gloves currently available in the market today. They provide tactile sensitivity and protect the hands from potentially infectious materials.

#### Features and Benefits:

- Textured fingertips enable grip even when wet
- Helps deliver savings over most other nitrile exam gloves
- Tested for use with various lab chemicals and chemotherapy drugs<sup>1</sup>

Cat. No.	Description	Qty.
88TN01XS	X-Small	200/bx, 2,000/cs
88TN02S	Small	200/bx, 2,000/cs
88TN03M	Medium	200/bx, 2,000/cs
88TN04L	Large	200/bx, 2,000/cs
88TN05XL	X-Large	200/bx, 2,000/cs
88TN06XXL	XX-Large	200/bx, 2,000/cs

- Powder-free
- Not made with natural rubber latex
- Ambidextrous
- Color: Cornflower blue
- Nominal fingertip thickness: 4.2 mil (0.11mm)

<sup>1</sup>**Caution:** Gloves used for protection against chemotherapy drug and laboratory chemical exposure should be selected specifically for the type of chemicals being used.

# Peri-operative - Gowns: Procedure

Procedure gowns are designed specifically for non-sterile applications.

### Non-Sterile Procedure Gowns

Designed specifically for non-sterile applications such as endoscopy, dialysis, urology, emergency rooms, burn units, labor and delivery, housekeeping, clinical labs and biopsies. These gowns are constructed from a tri-layer SMS fabric and are appropriate for use in moderate fluid settings.

Cat. No.	Description	Qty.
<b>Hook-and-loop neck closure, knit cuffs, waist belt</b>		
<b>3200PG</b>	Universal, blue	10/pk, 60/cs
<b>3201PG</b>	X-large, blue	10/pk, 60/cs

# Peri-operative - Gowns: Surgical

As an industry-leading manufacturer<sup>1</sup> of surgical gowns, we've got you covered.

Our Astound® Surgical Gowns offer AAMI level 3 and AAMI level 4 protection in the critical zones to help keep you safe from potentially harmful elements, allowing you to focus on what matters most – your patients. In developing our portfolio of products, we worked closely with healthcare professionals, like you, to make sure that your needs and expectations were not just met, but exceeded.

## What will you be wearing?

It's important to choose the right gown for the right procedure.

## AAMI levels

All surgical gowns are categorized by a barrier performance level which is designated by the AAMI and based on Standard PB70:2012.

1. Project #02903.

# Peri-operative - Headwear

Our protective headwear provides comfortable coverage so you can focus on the surgical task at hand.

From our surgeon's caps and hoods to our premium bouffants, our headwear is designed to be comfortable and at the same time provide necessary coverage. Available in a variety of styles, colors and sizes to meet your needs.

## Comfort Bouffant Caps

Our lightweight, comfortable bouffant caps are made of nonwoven, spunbonded polypropylene fabric. The gentle synthetic elastic provides roomy, secure coverage without binding. Bouffant caps are not made with natural rubber latex and available in white or blue.

Cat. No.	Description	Qty.
3244	Blue comfort bouffant, 21 in.	100/box, 10 boxes/case
3274	Blue comfort bouffant, 24 in.	75/box, 10 boxes/case
9302	White comfort bouffant, 21 in.	250/case
9303	White comfort bouffant, 24 in.	250/case

## Premium Bouffant Caps

Our premium bouffant caps are made of heavyweight spunbonded polypropylene. They are designed to provide additional strength and improved fluid resistance while still offering breathability and comfort. Synthetic elastic offers a personalized fit that is not made with natural rubber latex.

Cat. No.	Description	Qty.
B24HD	Blue bouffant, 24 in.	75/box, 10 boxes/case

## Designer Nurse's Cap

A comfortable alternative to bouffant caps, this nurse's cap is constructed of lightweight spunbonded polypropylene. Designer nurse's cap features popular celebration print.

Cat. No.	Description	Qty.
3290	White, celebration print designer nurse's cap	100/box, 6 boxes/case

## Surgeon's Caps

Easy-tie surgeon's cap is designed for particulate control. Our cap is easy to don and features adjustable ties. Lightweight, nonwoven material is comfortable and absorbent.

Cat. No.	Description	Qty.
4359	Blue surgeon's cap with ties	100/box, 6 boxes/case
4359SMS	Blue SMS surgeon's cap with ties	100/box, 5 boxes/case
4380C	Blue comfort hood	75/box, 6 boxes/case
4381	Blue surgeon's hood with ties	100/case
4384	Blue pullover hood	100/case
9216	White beard cover, full coverage	250/case

# Peri-operative - Lubricating Jelly

## Lubricating Jelly

Our lubricating jelly provides immediate, long-lasting lubrication.

- Bacteriostatic
- CHG-free (chlorhexidine gluconate)
- Water-soluble
- Greaseless
- Unscented

Cat. No.	Description	Qty.
LUB-2FLPB	Lube Jelly ReliaMed® 2 oz. flip cap

HR211-576	Lube Jelly HR® 1.25 oz. 2X OneShot™ lube	576/cs

Your mask is an important decision. Choose the right one.

## Insta-Gard® Procedure Masks

Insta-Gard® masks are not designed for high-fluid cases, but they do offer protection against particles.

Cat. No.	Description	Qty.
AT7511-WE	Insta-Gard® blue poly/poly procedure mask with eyeshield	25/bx, 100/cs

## Secure-Gard® Procedure Masks

Secure-Gard® masks are constructed with light and cool proprietary materials that achieve 160 mm Hg fluid resistance and filtration, while providing a cool, comfortable fit.

Cat. No.	Description	Qty
AT74631	Secure-Gard® fluid-resistant procedure mask with eyeshield	25/bx, 100/cs

# Peri-operative - Monitoring/Nasal Cannulas

Cardinal Health™ ECG Monitoring Electrodes help ensure accurate tracings, good adhesion and durability for monitoring you can trust.

## ECG Foam Tear Drop Electrode

Our ECG adhesive gel electrodes are specifically designed for adult monitoring and diagnostic applications. They feature a stainless steel snap, and a specially formulated solid gel that provides adhesion and ease of application as well as cleanup.

- Recommended usage: ICU/CCU, Surgery, Emergency, Stress, Holter

Cat. No.	Description	Qty.
E301FATM	Electrode, ECG, monitoring, SS snap, foam, adult, tear drop	3/pk, 100 pk/bx

## AirLife® Cushion Nasal Cannulas

These nasal cannulas have a soft, clear design for patient comfort. All supply tubing is crush-resistant to help prevent occlusion and kinking.

Cat. No.	Description	Qty.
002600	Adult nasal cannula, crush-resistant 7 ft. tubing	50/cs
002600-14	Adult nasal cannula, crush-resistant 14 ft. tubing	50/cs

# Peri-operative - Oral Suctioning and Tubing

Medi-Vac® suction handles deliver performance and maneuverability. These lightweight handles are designed to provide control and visibility with minimal tissue trauma.

## Bulbous Tip

Rounded to help reduce tissue trauma. Available with or without vent.

## Straight Tip

Open tip without unnecessary bulk for better visibility. Available with or without vent.

## Yankauer Suction Handles

Cat. No.	Description	Qty.
FG71-24225	Bulbous tip	50/cs
FG71-24227	Straight tip	50/cs

## Suction Tubing

Cat. No.	Description	Qty.
N512	5mm x 12 ft.	50/cs
FG71-1214C	6mm x 9 ft.	50/cs
FG71-1188C	7mm x 6 ft.	75/cs
FG71-1235C	7mm x 9 ft.	50/cs
N712	7mm x 12 ft.	20/cs

# Peri-operative - Scope Transport/Shields

Increase efficiency and convenience in your gastrointestinal (GI) suite.

## Scope Transport Bag

Multi-Purpose Scope Transport Bag with drawstring ties to safely transport endoscopes for reprocessing.

- Fluid resistant material
- Padding absorbs and protects
- Helps prevent contamination during transport
- Dual purpose biohazard/used equipment tag to keep GI personnel informed and safe
- Utilized as back procedural tray cover

Cat. No.	Description	Qty.
<b>345SVBT</b>	Padded, fluid resistant scope transport bag with drawstrings	100/cs

## I can see clearly now

Cardinal Health offers a comprehensive portfolio of protective eyewear to help meet your eyewear needs.

## Cardinal Health™ Protective Eyewear

The Cardinal Health™ Protective Eyewear System includes:

### Eyewear

- A flexible, lightweight frame
- Optical-grade, clear replacement lenses
- Pre-assembled eyewear frame and lens option\*

### Shields

# Peri-operative - Shoe Covers/Suction Canisters

Our durable footwear is constructed of spunbonded polypropylene. Footwear is available in a variety of styles and sizes to meet your needs.

## Spunbonded Polypropylene Shoe Covers

Our lightweight, comfortable shoe covers are made of nonwoven, spunbonded polypropylene fabric. **Spunbonded:** Standard fabric for basic protective apparel. Bonded fibers form a single layer of breathable, woven-like material. Covers are available with or without skid-resistant tread and are not made with natural rubber latex. Economical and comfortable.

- Possible uses: no fluid interaction expected

Cat. No.	Description	Size	Qty.
2850	Shoe cover without skid-resistant traction	Universal	400/cs
2852	Shoe cover with skid-resistant traction	Universal	400/cs
2854	Shoe cover with skid-resistant traction	X-large	400/cs

## Designed with convenience in mind

We offer a complete portfolio of fluid management products to provide everything you need, all in one place. Our single-use systems deliver exceptional performance and provide hygienic, safe and efficient disposal of liquid medical waste.

## Rigid Canisters

Medi-Vac® Rigid Canisters require minimal hardware and are available in a variety of sizes to meet all of your suction fluid collection needs. These single-use disposable canisters feature an audible locking lid, bacterial filter and an automatic shut-off valve to help prevent cross contamination of regulators and wall vacuum outlets.

Special brackets and stands are available for convenient mounting configurations and mobility. Contact your sales representative for more information.

Cat. No.	Description	Qty.
65651-212	Rigid canister, 1200cc	40/cs

# Peri-operative - Syringes

## Clinically-effective, Cost-effective

### Luer Lock and Luer Slip Syringes

Our general-use syringes feature a clear barrel for content visualization and accurate, bold scale markings to help with dosage accuracy. The large finger flange helps improve control during aspiration and injection and the plunger stop feature helps prevent accidental plunger pull out. Developed with patient comfort, ease of use and clinical performance in mind, syringes are available in both Luer Lock and Luer Slip styles. Not made with natural rubber latex.

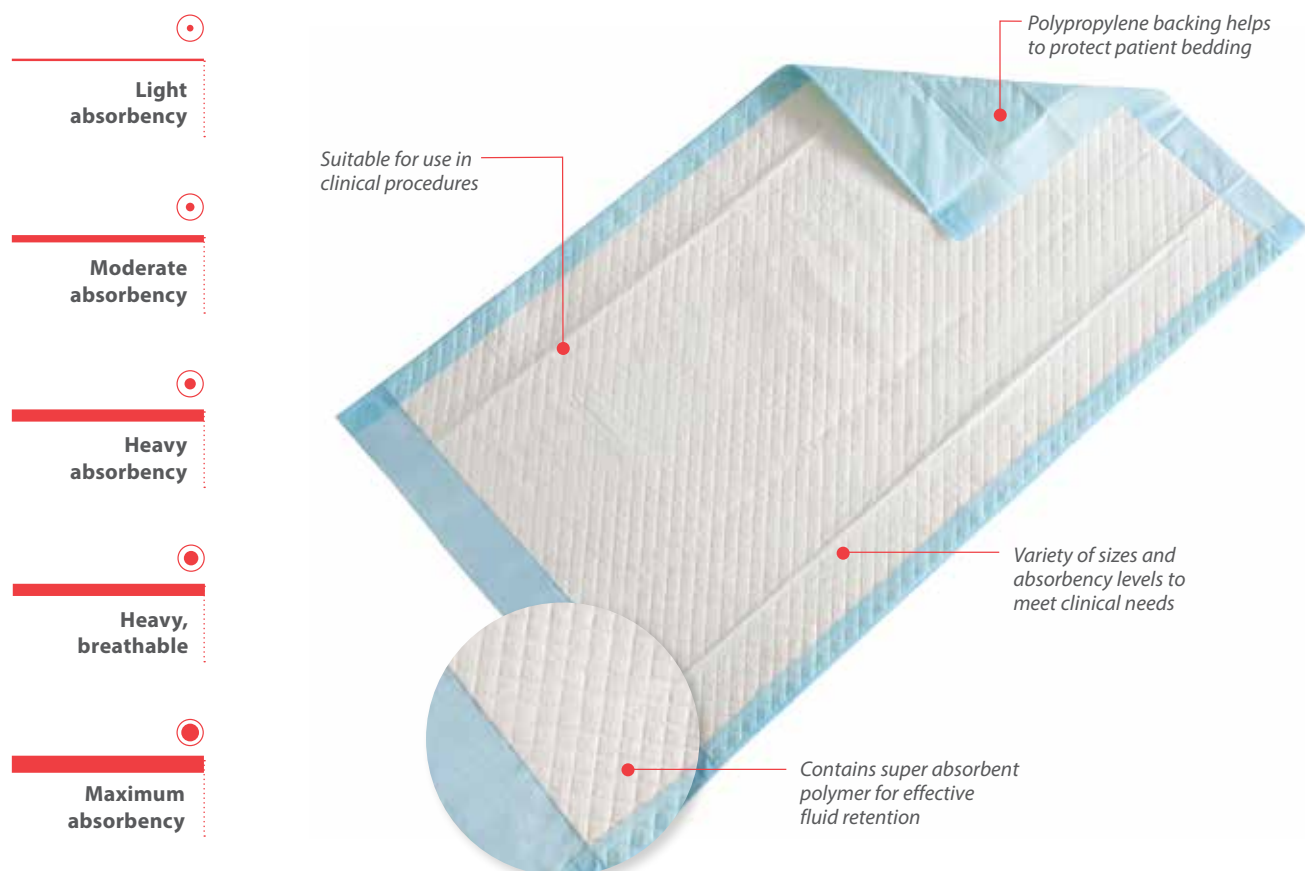

Cat. No.	Description	Qty.

# Post-procedural - Solidifier

## Solid solutions to fluid sources of contamination.

Together with Microtek Medical, we offer these solutions to solidify and encapsulate infectious liquids for safe disposal.

### ISOSORB® Solidification Solutions

We offer these solutions to solidify and encapsulate the contents of suction canisters, basins, kick buckets and spills. ISOSORB® encapsulates blood, blood components and fluids with wide ranges of pH and electrolyte concentrations. The solutions reduce the hazards associated with emptying the collection unit and transporting biohazardous waste in fluid form, and they minimize the risk to healthcare workers of exposure to biohazardous fluids. Available in a SAF-T-TOP™ dispenser closed-system that helps eliminate the need to open the pour spout on most suction canisters.

Cat. No.	Description	Qty.
ISOB1500	SAF-T-TOP™ dispenser - 1500cc fluid solidified	100/cs
