

PAINT BRUSHES

Flints sells a huge variety of specialist paint brushes. We would be happy to provide special quotes for educational departments and large scene shops. It is a false economy to use a poor quality brush for any painting work.

DECORATOR'S BRUSHES

A good brush will hold the correct quantity of paint allowing you to work quickly with less chance of brush or lap marks. Artificial bristles tend to wash out water-based paints more easily. Natural bristle brushes tend to be a little stiffer for manipulating heavy-bodied paints. Use the widest brush you can comfortably handle, it will help maintain the crucial "wet edge". Choose our budget brushes for working with materials that require special thinners such as resins or Hammerite.

NATURAL BRUSHES

Decorator's Brush Extra thick, with a mix of natural and synthetic solid round tapered [SRT] bristles to provide a great all-round brush at an unbeatable price. Waxed wooden beavertail handle with a stainless steel ferrule. Walled. Superb value.

JENNY FOAM

No brush
marks – just a
mirror finish!

Jenny Foam Brushes and Rollers Don't be deceived by imitations – Jenny Brushes are the original foam brush using a patented foam supported with a polyethylene stiffener. Flints are the UK dealers for these renowned brushes which are ideal for applying and laying-off high gloss finishes such as enamel or varnish. The Jenny Rollers are designed for rapid application of paint and varnish which can then be laid-off vertically by a second person with a wide Jenny Brush. By working rapidly lap marks will not occur. The brushes are easy to clean but also cheap enough to throw away making them ideal for touching up work. The finish achieved with these brushes is first class and they are the preferred choice of many of Britain's classic-yacht yards seeking the perfect finish. They are also used by NASA for the application of primers, topcoats, grease, release agents and adhesives. Not suitable for use with shellac.

- ✓ Made from a special foam so they leave no fibres like many ordinary rollers
- ✓ Use them for oil based varnishes and enamels for a perfect mirror finish

BUDGET BRUSHES

Budget Brushes We bring in these brushes directly from what we believe is the best quality manufacturer in China. The quality knocks the socks off some of the dross they sell in the big sheds. In fact our unpainted wooden-handled brushes are really pretty

damn good! Still cheap enough to throw away when you are working with difficult to clean products such as resins, glues and paints like Hammerite which require special solvents. Choose these unpainted wooden handled brushes for working with powerful solvent-laden resins as the handles will not dissolve.

Brush Cleaning

Allow enough time to thoroughly clean your brushes. Artificial bristle brushes generally clean more easily than real bristle especially with water based paint. If using oil based paints pour the correct thinner into a paint kettle and use a brush comb to remove most of the paint, then repeat with clean thinner and finally work in some washing up liquid then clean with water. Dry off most of the water with paper towel or cloth then lay the brush on a sheet of clean paper and neatly fold the paper over the bristles to hold their shape. Secure the paper with a piece of masking tape. The brush will be dust free and correctly shaped ready for your next job.
