# Design

**We believe that great  
designs by top designers  
are the first step in the  
process of creating  
“Light Enhancing Life.”**

# Materials

**We use the finest in silks,  
woods, metals, glass and  
other materials to ensure the  
highest standards in quality.**

**All products are proudly  
hand made in Saint Joseph,  
Michigan to exacting  
process standards by  
skilled trades people.**

Craft

**We hand craft for  
residential and commercial  
projects across the world.**

Assisted Living & Memory Care Community,  
Wichita, Kansas.

# Brilliance

Stonegate is proud to introduce Vern Yip  
as our newest design partner

One room at a time, Vern Yip is designing his way across America, having knocked down walls and made over countless homes and restaurants during his four seasons on TLC's Trading Spaces, on NBC's Home Intervention, and during his now nine years as one of HGTV's most recognizable designers. His successful, national commercial for AT&T aired during some of America's most watched programs, including the 2012 Super Bowl and the 2012 Grammy Awards. In spring of 2013, Diet Pepsi released a limited edition Vern Yip can featuring a Peacock pattern created exclusively for Diet Pepsi by Vern, making him the first interior designer to have his own signature can. Vern is also in his third year with Home Shopping Network (HSN) where he spearheads the Vern Yip Home line of home décor.

Vern's past HGTV projects include four seasons of his own show titled Deserving Design with Vern Yip and two seasons as host and designer of HGTV Urban Oasis. His HGTV work also includes eight seasons of HGTV's top-rated prime-time series HGTV Design Star and an all new season of Bang for Your Buck, where he serves as the show's host and design expert. Vern's award-winning work has a distinct flair that reflects his expertise as both an architectural and interior designer.

Vern runs his own design company in Atlanta, GA, Vern Yip Designs and

his vast array of design tips can be found on-line at [vernyp.com](http://vernyp.com). With an undergraduate education from The University of Virginia and an M.B.A. and Master of Architecture from The Georgia Institute of Technology, Vern has used his varied educational background to build a distinguished business. His creations and room transformations range in budget from the notoriously frugal showcased on television to eight-figure projects for high-end clients nationwide, including special event design for one of the highest profile Oscar parties. Regardless of the budget, Vern's design calling card is his attention to detail married with precise, clean-lined interiors balanced with a sense of warmth. Many elements of his eclectic style demonstrate an influence from his love of travel. Vern has traveled to nearly four dozen countries in the past seven years.

Recognized on the street, in home improvement centers, and in public venues across America, Vern has been prominently featured in publications such as Entertainment Weekly, People, The New York Times, and USA Today. He is frequently seen on NBC's Today, CNN and Live! with Kelly and Michael. Additionally, Vern has been a columnist for The Washington Post since 2011 where he writes about the worlds of travel and design and has a monthly column at HGTV Magazine called Learn from Vern where he dispenses the most critical design tips for the home.

Clear acrylic finial

## Bill Carle, Stonegate Designs

Bill Carle Jr is the third generation owner of Lake Shore Studios. During his formative years growing up in the decorative shade industry Bill developed an intense interest and eye for design. In 1998 he launched the decorative lighting line from the base of Lake Shore Studios Inc. and Stonegate Designs was born.

Taking an unconventional approach of using mixed materials to create a modern yet approachable feel, he set the stage for creating a truly one of a kind lighting company.

Both criticized and credited for turning the industry upside down, Stonegate Designs quickly earned the 20th Annual Arts Award for the leading lighting fixture manufacturer in the industry.

Bill oversees all design elements for Stonegate and is passionate about the Stonegate "Brand". Committed to a "Made in the USA" philosophy Bill has been able to balance lines of standard product of his own creation supplemented with a team of outside and inside designers.

## Zia-Priven Design

Marcia Zia and Paul Priven, the husband-and-wife-team, created ZIA-PRIVEN in 1999 to pursue their passion to create extraordinary lighting. Though Marcia, an Emmy nominated set decorator and Paul, an Assistant Director left the entertainment industry, the ZIA-PRIVEN aesthetic is classically modern with a nod to the couple's Hollywood roots.

ZIA-PRIVEN has been privileged to work with some of the world's foremost Interior Designers including Jamie Drake, Mark Zeff, Benjamin Noriega-Ortiz and Geoffrey Bradfield. Past projects include the Fontainebleau Hotel Miami, Grand Hotel Stockholm, Four Seasons Resorts Santa Barbara, the Wynn Macao including many high profile residences. Their work has been featured in numerous design publications, the reference text "Ultimate New York Design", as well as a live interview on the Early Show.

1 × 75-Watt Type A

Hang Weight: 5lbs

**General Specifications**

The products on these pages are all UL/CUL approved

Standard stem kit with hang straight

Standard white acrylic diffuser

Glass ball finial

# Gonzalo Gonzalez

Born in Madrid, with an over 35 year career history in the lighting industry, twenty while residing in the USA, Gonzalo developed a good global vision of the differences and opportunities in both markets.

With a solid background in engineering and product development, he designed original products marketed by his company and later contributed to the expansion and success in the market of other well know international companies in the industry. His background includes a successful track record of introducing innovative European lighting products in the American market.

His innovative lighting design ideas contributed to the expansion and success of companies such as Hubble Lighting, W.A.C. Lighting, Ardee Lighting, Bruck Lighting, The Minka Group, Juno, Jesco Lighting Group, Oggetti Luce and Lightolier.

In 2006 one of his collections received the ADEX Award for Design Excellence.

# Nova Collection

*shown with*

# Sales Terms and Conditions

*This list cancels and replaces all previous ones, terms below valid as of APRIL 2015,  
Stonegate Designs reserves the rights to update their terms and conditions at any time.*

## ORDER PLACEMENT

Stonegate Designs accepts orders in writing only by email, fax, or postal service. To avoid discrepancies, verbal orders will not be accepted. All terms and conditions listed in this document are fully accepted by the customer upon ordering.

Submit purchase orders by fax (888) 689-9080 or email purchase order to [orders@stonegatedesigns.com](mailto:orders@stonegatedesigns.com). You may also send your orders by United States Postal Office (USPS) to:

Lake Shore Studios Inc/Stonegate Designs  
4200 Niles Road  
Saint Joseph, MI 49085

To avoid delays in processing, approved dealers must submit a purchase order with part numbers, fabric choices, finish selections, accurate "bill to" and "ship to" addresses, quantities and a quote number (if one exists). Fabric and finish options are listed by product and collection on the Stonegate Designs website and catalog.

**Correct** pricing that matches your price list provided by your representative must be submitted with your purchase order. The order is **"on hold"** until we get all the information that we need to process it. Orders that are **"on hold"** are **not** in production with our standard lead times, until it is sent to our production floor and a confirmation has been received by the customer and representative. All custom orders will require a deposit of 50% for drawings to be requested (average time for engineering drawings is approximately two weeks).

### Step 1:

List the Design by indicating the PART # and Description.  
*For example: LP10438 (16" Astoria Square Pendant).*

### Step 2:

Choose a FINISH. *For example, P05 for polished nickel.*

### Step 3:

Choose a FABRIC by number and color, i.e. 614 for silk dupioni and MOC for mocha. If using Customer's Own Material, indicate COM as the fabric choice. (Please note Stonegate Designs must verify workability of all COM fabrics prior to placing order. All COM fabric must be accompanied by a Stonegate Designs COM form.)

*\* You must send in a swatch 5" X 5" for COM fabric verification usage.*

Please visit our website ([stonegatedesigns.com](http://stonegatedesigns.com)) for our special order material (SOM) selections.

### Step 4:

If applicable, list additional options, such as WOOD or LASER CUT PATTERN: For example, W03 for walnut; Branches to indicate the pattern for the Laser Cut Collection.

### Step 5:

List extras needed: i.e.: stems, top diffuser, slope ceiling, etc. Use appropriate part number and/or item description for extra items needed such as stems, top diffusers, slope adapters, etc.

### Step 6:

If your purchase order is tied to a quote, you must put the quote number on your purchase order. Check to make sure that you are not sending in pricing on an expired quote, as quotes are only valid for sixty days. After sixty days a re-quote is required from the quotes department.

### Example For Ordering

A complete part number will look like this:

**LP10438-P05-614IVY-W03.**

## ORDER SUBMISSION

To avoid delays when emailing to the [orders@stonegatedesigns.com](mailto:orders@stonegatedesigns.com), use the subject line in the email to identify what you need the internal sales team to address. Use the same subject line for the entire ordering process when communicating with sales, as this will help track all the original data tied to that order.

- PURCHASE ORDER
- REVISED PURCHASE ORDER (DO NOT DUPLICATE)
- MARKETING FULFILLMENT
- QUALITY ISSUE
- STATUS UPDATE
- CUSTOMERS OWN MATERIAL (COM)
- SPECIAL ORDER MATERIAL (SOM)
- GENERAL QUESTIONS
- DRAWINGS APPROVAL

**Example:** Intake category (listed above), name of company, customer number, purchase order number, quote number (if it is tied to your purchase order number).

**Email Subject Line:** PURCHASE ORDER, Lights Are Illuminating, CUST# 1234, PO# 224488, Quote # 55667

Make sure that your price lists are up to date with your representative prior to sending your order in for processing so that it will not be held up for correction. If

you are ordering from a formal quote from our quotes department, that number must accompany the purchase order and must be referenced in the subject line. Orders are not in production until all the steps for placing an order are completed and you have received your confirmation.

## ORDER CONFIRMATION

Stonegate Designs will **ALWAYS** send an order confirmation. If the buyer does not receive an order confirmation within 3 business days, it is the **buyer's and or representatives responsibility** to advise Stonegate Designs. It is the buyer's responsibility to verify that all details are correct on the order confirmation, in particular: part #, fabric, finish, size, quantity, price, destination, and delivery date.

## CHANGES OR CANCELLATIONS

Any modification or cancellation requests against confirmed orders must be emailed or faxed within 3 (three) business days from receipt of the order confirmation by the buyer. Stonegate Designs does not accept responsibility for any possible inaccuracies not addressed in writing within 3 business days. You can fax or email those to the appropriate numbers listed under 'Order Placement.'

Product cannot be returned/refunded or the order cancelled due to inaccuracies not registered by the buyer within 3 business days of receipt of the order confirmation.

Stonegate Designs does not accept order cancellations after 3 business days. At Stonegate Designs discretion in special cases, Stonegate Designs may authorize a cancellation. The buyer will have to pay a penalty corresponding to a 50% restocking fee of the cancelled goods. All goods are shipped back to Stonegate Designs at the buyers cost. Cancellations are only valid if accepted in writing by Stonegate Designs. If products are shipped back without proper authorization with the RA clearly marked on the outside of the packaging, the shipment will be refused.

## PRICES

Pricing is subject to change without prior notification. Your representative is given the most updated spread sheets for pricing and will supply those price sheets to you either in a PDF file or Excel spread sheets. We do not give pricing over the phone/email/fax.

# Sales Terms and Conditions — Continued

## NEW ACCOUNTS

Prior to setting up a new account with Stonegate Designs you will be assigned a representative servicing your area. It is our policy not to set up new accounts unless you are placing an order. If you are applying for credit terms you must request an application for credit. A credit report will be requested from the credit reporting agencies. Once the credit report is received and reviewed, the type of credit term will be extended in a letter from our company to you. This process may take one week to complete, therefore if you want to place an immediate order it will need to be pre-paid either by check by fax or with a credit card. There is a nominal fee to run the credit report which will be reflected on the first invoice. The credit application is sent directly to fax number (888) 277-2818 to the accounting department, not to sales or to your representative or internal sales. Your financial information should be confidential to the credit manager only. Your representative or Stonegate Designs internal sales agent can supply the forms to you.

## PAYMENTS

Payments are due according to terms specified on the order confirmation. We take Mastercard, Visa, check by fax (888) 277-2828 or you can send them by USPS. All payments should be made directly to Lake Shore Studios.

Lake Shore Studios/Stonegate Designs  
4200 Niles Road  
St. Joseph, Michigan 49085

## Net 30 Terms

Net 30 terms are available for pre-approved accounts. Payments are due within 30 days from date of invoice. If a customer consistently (three month period aggregate) does not pay within the net thirty terms, the account will be re-evaluated and different terms will apply. All custom purchase orders will have a deposit of 50% down, the freight and the second 50% are due net in thirty days, unless special terms apply to the order placed.

## Pre-Pay Terms

Stonegate Designs accepts 100% payment in the form of credit card or check by fax, also by mail. Production of product will not begin until the full 100% payment is received.

## Proforma Terms

Proforma Terms are available for pre-approved accounts. Production of product will not begin until the first 50% payment is received. The second fifty percent is due prior to the product(s) shipping.

*Stonegate Designs reserves the right to suspend orders for an account if unpaid balances exist. Non compliance of the conditions listed will be considered by Stonegate Designs as reasons to terminate the business relation.*

## SHIPPING/FREIGHT

All shipping/freight charges are the responsibility of the buyer. Stonegate Designs arranges for freight as a courtesy to our customers. Freight (truck or air) shipments are charged on a separate bill line item depending on what the customers terms are for payment. It is the buyer's responsibility to provide accurate shipping instructions. Unless shipping instructions are specified on the purchase order, Stonegate Designs will ship by the most economical means possible. When filling out your purchase order make sure that the "ship to" and "bill to" addresses are completed. Any "To Be Determined (TBD)" ship to addresses will need to have an address no later than **one week** prior to the anticipated ship date on your confirmation sent to the internal sales agents through [orders@stonegatedesigns.com](mailto:orders@stonegatedesigns.com). No refunds will be issued if a lesser cost shipping method becomes available. Freight changes on a daily basis and the price can have a significant change either up or down each day. The price you are quoted will be the price that you pay for freight. Side marks that a customer wants called out must be clearly noted on the sales order. If you are using a third party shipper it must be noted on the purchase order when it is sent in for processing. Third party shipper contact information must be included on the purchase order or we cannot put the order into production. Provide the custom brokers information for all international shipments on the purchase order.

## BACKORDERS

Every effort is made to notify customers if an issue arises that could result in a backorder or delay. If the order is in production and it has been started, there is no cancellation.

## SHORTSHIPMENTS

Unless you indicate otherwise we will short ship and invoice for partial shipments if some of the items are backordered for materials. If you do not want us to short ship an order you must indicate that in writing clearly on the purchase order number. All freight on multiple shipments are the customers responsibility. Short shipments, at the customer's request, may result in additional shipping fees.

For international shipments provide the custom brokers information on the purchase order.

## RECEIPT OF GOODS

Prior to signing the shipping bill, the buyer or addressee must carefully check that the packaging and goods have arrived in good condition prior to signing the shipping bill. Should packaging arrive damaged, the addressee must accept the shipment with "a reservation" and give immediate information in regards to the damage to Stonegate Designs and/or to the forwarding agent. All damaged packaging must be kept, as is, for a possible check or inspection by the forwarding agent. Claims for shortage or damages must be made within **three (3) business days after receipt of goods**. All quality issues (QI's) need to be sent to [orders@stonegatedesigns.com](mailto:orders@stonegatedesigns.com), along with the customer number, sales order number, issue(s) and photos. Your representative must be notified at the same time. Internal sales will begin the process of taking care of these issues with credits or replacements when within the terms and conditions of our company policies. To request an RA Number, please contact a Stonegate Designs internal sales agent at 888-722-8323. Stonegate Designs is not responsible for installation costs for fixtures that are regarded as damaged/defective.

## PACKAGE/CRATE VOLUME

It is the buyer's responsibility to verify that the volume of the shipment ordered will fit all entryways and space where it will be received and stored.

## DELIVERY DATE

The delivery date provided by Stonegate Designs is considered approximate and not binding. The agreed delivery date is not guaranteed. Any possible delay caused by unforeseen acts or by any inefficiency of the transportation service cannot justify a claim or order cancellation. Fixed delivery dates must be agreed in advance with Stonegate Designs and will incur a RUSH fee. Stonegate Designs recommends scheduling electricians and installers after goods are delivered and in the buyer's possession.

## REFUSAL TO ACCEPT ORDER

If the buyer, due to any reason, refuses to collect their order or refuses to take delivery and/or Stonegate Designs is not in a position to deliver goods within the established delivery date due to lack of information concerning the shipment (documents, licenses, authorizations, etc.) the buyer takes all the risks for the product (including its loss and damage). In case of failure to collect or refusal

to accept delivery, Stonegate Designs reserves the right to charge the buyer with all costs concerning the storage, return to Stonegate Designs and redirected shipping including all insurance tied to that transport. Orders not collected will accrue a storage charge at Stonegate Designs discretion. The buyer must collect ordered product or agree to the shipment of the goods within 7 days of the availability notification.

## RETURNS

Returned product will not be accepted without a Return Authorization (RA) Number issued by Stonegate Designs. The RA Number must be listed on the outside of each carton. To request an RA Number, please email the request to [orders@stonegatedesigns.com](mailto:orders@stonegatedesigns.com).

Non-damaged product must be returned WITHIN 30 DAYS of receipt. Merchandise received past 30-days will be refused and invoiced. Returned product must ship back to Stonegate Designs, appropriately boxed, in its original packing to avoid damage. A 50% re-stocking fee will be assessed on non-damaged goods. Returned product shipping charges are the buyer's responsibility.

## QUALITY ISSUES

After accepting the shipment, during the **3day** grace period, unpack your shipment and if any products are damaged or defective, you must notify Stonegate Designs through [orders@stonegatedesigns.com](mailto:orders@stonegatedesigns.com) immediately. Our intake box is time stamped for sensitive information. Describe the issue(s) with the shipment and send photos of the packaging and the damaged products in the email so that a determination can be made as to the resolution of the issue(s).

## CUSTOM FIXTURES

Custom fixtures cannot be cancelled. Additional charges apply on all custom orders. All custom orders must be accompanied with a current Stonegate quote or reference to a valid Stonegate quote number. Sales Terms and Conditions apply on all custom orders as well as any additional terms and conditions outlined on the quote. Receipt of a purchase order and signed drawings are considered acceptance of these sales terms and conditions. All expired quotations must be re-quoted. All quote requests should be submitted to the specifying state's Stonegate Representative. All quotes from Stonegate Designs will be sent to the specifying state's Stonegate Representative for review and submittal. Please allow 3-5 business days for custom quotations.

## TRADEMARK DETAILS

All use of the "Stonegate Designs" trademark for advertising purposes through all media (television, radio, press, internet sites or other) or communication purpose (catalogues, brochures, panels etc) requires prior written authorization from Stonegate Designs.

## PRODUCT IMAGES

All use of Stonegate Designs products images for any purpose is strictly forbidden including the use for selling online, if not previously authorized in writing by Stonegate Designs. Every authorization is given only for the requested purpose.

## RESELLING

Product supplied shall be sold only by the Buyer at the location of the "ship to" address. No trans-shipping is allowed. A breach of the above policy shall entitle Stonegate Designs, at its discretion, to discontinue shipments to the Buyer. Stonegate Designs will only accept responsibility for shipments we have coordinated to the "ship to address" on the sales order.

## ONLINE RESELLERS

For online sales, buyers are required to complete, acknowledge, and apply all terms listed in the Stonegate Designs AUTHORIZED INTERNET RETAILER AGREEMENT.

## MAP POLICY

Stonegate Designs has imposed the MAP or "minimum advertised pricing" for all retailers. The minimum advertised price is a 2.1 wholesale mark-up. Internet and Brick and Mortar retailers, wholesalers and distributors who do not abide by the minimum 2.1 mark-up, will lose their "authorized dealer" status. On occasion, a retailer may ask for permission to run a short term, limited time sale, which will allow them the ability to advertise Stonegate Designs' pricing below the imposed MAP.

## WARRANTY

Stonegate Designs warrants its products to be free of defects in materials (see details below) and workmanship for one year from date of delivery. Stonegate Designs at its sole option will repair or replace any product defective in materials and workmanship. Modification made to a Stonegate Designs product not made in the factory will void the UL/CUL and Stonegate Designs warranty. Stonegate Designs is not obligated to pay for any electricians fees in installing/uninstalling products. Bulbs are not shipped with our products. Refer to a bulb manufacturer for a bulb that fits your application and our

specifications on our engineering drawings. Over lamping your fixture voids your UL/CUL approved rating and Stonegate Designs product warranty.

## PRODUCT DETAILS

### Fabric

Stonegate Designs offers a variety of hand-made and natural fibers; each selection is based on a variety of characteristics including texture, light fastness, color fastness, workability, color options, etc. Natural fibers, such as silk dupioni, silk shantung, China silk, raw silk, silk pongee, and textured silk will have natural irregularities that are visible to the naked eye. Silk worm threads and slubs in the final weave are normal and natural; they are not imperfections, but merely a characteristic of the fiber, which illustrates the origin of the fabric. Fabric dye lots may change and are not guaranteed to match if items are ordered at separate times.

### Metal Finishes & Glass

Metal finish and glass colors may vary slightly due to the uniqueness of each piece.

### Wood

Stonegate Designs selects each wood for its unique characteristics; including variances in color, tone, and texture, which are acceptable and not considered a flaw. Size and shape of knots, mineral streaks, or unique grain patterns may cause slight color variations, including light and/or dark spots; all are normal and not considered defects.

### UL and CUL

Most lighting from Stonegate Designs is UL and CUL approved. Changes or modification made to a Stonegate Designs product not made in the factory will void the UL or CUL Listing.
