Mop Wringers

STAINLESS STEEL DOWNWARD PRESSURE

Resist rust, abrasion, discoloration, and staining under normal use. Stainless steel parts except for pressure bars and springs. Use flat band wringers with No. 4KP67 half-round buckets (see listing this page).

Stainless Steel

ZINC-PLATED STEEL

Downward Pressure

All-metal, welded and riveted zinc-electroplated construction.

Side-Squeeze

Linkage system and 5/8" solid steel shaft put more force on mop head. Heavy-gauge zinc-electroplated steel to resist corrosion. Large drain openings.

Galvanized Steel

Description	8 to 16 oz. Item No.	16 to 24 oz. Item No.	24 to 36 oz. Item No.	20 to 40 oz. Item No.

Steel Mop Buckets

STAINLESS STEEL

Sanitized 1-pc. design prevents leaks. Rolled, open rim reinforces buckets and prevents accumulation of dirt and bacteria. Bail ears are positioned to avoid interference with wringer placement.

Half-Round Stainless Steel Bucket

Half-Round, No. 4KP67

Etched graduations for accurate mixing. Fastened together by an overlapping lip for stability. Nest for storage.

GALVANIZED STEEL

Zinc coating prevents leaks and corrosion. Hot-dipped galvanized after bucket is formed.

Galvanized Steel Bucket

26-Qt., No. 2W318

24-ga., with mechanically locked, hand-soldered seams. Reinforced top ring, riveted bail ears, and embossed graduations. Use with No. 2W316 side-squeeze top wringer (see listing this page).

Galvanized Steel Bucket/Wringer

Mop Bucket/Wringer, No. 2MPE1

Wire-reinforced rim adds durability and recessed bottom allows easy handling. Includes wooden rollers and foot pedal for easy operation.

Mop Bucket/Wringer Combos

TANDEM™

All-in-one compact design with integrated bucket and wringer provides effective wringing and no lost parts. 31-qt. bucket has a down pressure wringer and accepts up to 24-oz. mops.

WAVEBRAKE® DUAL WATER BUCKET-IN-BUCKET COMBOS

Bucket-in-bucket component separates clean solution from dirty water to help prevent cross-contamination and improve productivity. Detachable dolly has 3" nonmarking casters. Built-in mop handle clip keeps the mop secure during transport to prevent damage to walls and equipment.

WAVEBRAKE®

Patented mop bucket system helps prevent workplace hazards associated with spills and splashes. 2 wave baffles reduce wave motion while bucket is being transported. Polypropylene structural web construction.

WAVEBRAKE® BUCKET/WRINGER COLOR-CODED COMBO

Helps organize equipment for restrooms, kitchens, lobbies, entrances, hallways, classrooms, etc.

WAVEBRAKE® BUILD YOUR OWN BUCKET

Individual components are available to build a cleaning system that meets your specific needs.

Tough Guy® Looped-End Wet Mops

- Stitched tailband
- Multiple colors help avoid cross contamination
- Wet mop handles sold separately on page 1371
- Launderable unless otherwise noted

Cotton/Rayon/Synthetic Blend—Durable mops are 4-ply with open-end spun yarn. Resist unraveling, fraying, and linting. Tailband prevents tangling and improves floor coverage.

Cotton—4-ply mop is more absorbent than other cotton/synthetic blends.

Cotton/Synthetic Blend—Mops are highly absorbent. Looped-end design increases floor coverage and reduces streaks.

Antimicrobial—Mop heads feature 4-ply antimicrobial yarn treated with a silver-based agent.

Rayon/Polyester—6-ply mop contains minimum 50% post-consumer recycled content.

Rubbermaid® Looped-End Wet Mops

- Stitched tailband
- Multiple colors help avoid cross contamination
- Wet mop handles sold separately on page 1371
- Launderable unless otherwise noted

Web Foot® Shrinkless Antimicrobial—Premium mops feature 4-ply material with cotton's absorbency, rayon's quick pick-up and water release, and the strength of a synthetic blend. Prelaundered and preshrunk. Contain up to 80% recycled content. Up to 75 launderings.

Web Foot® Blend Antimicrobial—Cotton/synthetic blend absorbs up to 5 times as much fluid as cotton mops. Open-twist yarn reduces linting and prolongs mop lifespan. Contains up to 80% recycled content. Up to 75 launderings.

Swinger Loop®—High-grade, 4-ply blend of cotton, rayon, and synthetic fibers. Contain up to 100% recycled content. Up to 50 launderings.

Super Stitch®—Balanced cotton/synthetic yarn blend. Plastic mesh headband. Limited launderability. Contain up to 100% recycled content.

Cleanroom—Nonlinting, nonfraying mops are designed for use in Class 10,000 and higher industrial applications. Woven rayon/polyester blend. Preshrunk for long life.

Rough Floor Wet Mop—Abrasive-resistant premium mops clean slip-resistant tile, concrete, and raised, textured, or stone floors without fraying. Knitted cotton and polyester fleece.

Tough Guy® Finish Mops

Medium: 16 to 22 oz. (dry weight), Large: 22 to 28 oz. (dry weight), #16: 12 oz. (dry weight), #20: 16 oz. (dry weight), #24: 20 oz. (dry weight), #32: 26 oz. (dry weight).

★ **Tough Guy® Nylon**—Looped-end nylon mops provide even application without excessive linting or fraying. Higher liquid release offers more coverage and less chemical waste.

★ **Tough Guy® Looped-End Rayon**—Economical alternative to nylon. Releases liquid evenly for a smooth, clean finish.

★ **Tough Guy® Cut-End Rayon**—Economical 4-ply mops have excellent absorbency and release characteristics; ideal for applying floor finishes and disinfectants.

★ **Tough Guy® Cut-End Rayon, Screw-On Style**—Provide easy mop head changes and have excellent liquid release properties; ideal for economical floor finishing, disinfecting, and general-purpose cleaning. Noncorrosive screw and header allows mops to lay flat for easy cleaning under furniture and cabinets. Use handle No. 1TZA6, sold separately on page 1371.

Finish Mops
RUBBERMAID® NYLON

Nonlinting, continuous filament yarn leaves a glossy long-lasting finish. GlossPro™ Flat Finish mop applies finish to 30% more floor area.

RUBBERMAID® WEB FOOT® LOOPED-END RAYON

4-ply, looped-end synthetic yarn is designed for a controlled release of floor finish. Tailband is sewn on the inside of mop to help reduce the "drag" patterns common to most finish mops.

SmartColor Cleaning System

Color-coding system includes decal kit to easily retask tools for different areas or functions as needed. Color-coding reduces cross contamination by making it easy to separate tools into their proper areas of use.

32-Qt. Mop Bucket Kit—Includes No. 2MXA3 dual bucket with side-press wringer, No. 2MXC9 flat mop holder, and No. 2MXC8 telescoping handle.

32-Qt. Dual-Chamber Mop Bucket—Dual-chamber bucket isolates dirty rinse water from clean water, reducing recontamination of mopped areas. Dirty water empties via rear-mounted dump spout or quick-release drain spout. Ergonomic to reduce strain and bending.

Microfiber Flat Mops—Can be machine washed and dried up to 500 times. 15mm pile mops are ideal for stone and tile floors with grout lines. 7mm pile mops are for vinyl or sealed floors without grout lines. Can reduce bacteria by 96%.

Damp Flat Mops—Dense microfiber weave and shorter fiber is ideal for variety of smooth floors including marble, wood, and linoleum. Low moisture, high absorbency. Dries floor as fast as a traditional mop and withstands up to 500 wash cycles.

Mop Handle and Holder—Using telescoping mop handle and pivoting mop holder together significantly reduces the repetitive strain of traditional mops. No. 2MXC8 is a lightweight aluminum, 2-section extension pole that attaches to mop holder. No. 2MXC9 features a pivoting, low-profile, easy to maneuver head with 3 hole flaps to secure mop head.

Color-Coded Trig Remove Watermark Now

The 360° dual-spray bottle allows you to use all the product in the container by providing a continual spray at every angle including upside down. Also provides a constant fine spray with less hand fatigue. Colored bases provide additional safety and organization by helping distinguish between different chemicals. Viton® seals resist most common chemicals and detergents. Features a level indicator embossed on container; marked in both mL and pints.

Dusting Tools

OVERHEAD DUSTERS

Lambswool Duster—Features a bendable head that conforms to objects. Handle attaches to Unger cone or standard ACME thread. Use with disposable sleeve No. 5DUU3 or microfiber sleeve.

Microfiber Ceiling Fan Duster—Unique shape cleans all sizes of ceiling fan blades. Use handheld or attach to telepole to clean high areas. Microfiber sleeve is washable.

Duster Brush—Soft horsehair/poly brush for cleaning fans and walls. Simultaneously cleans top and bottom of fan blade.

Pipe Brush—Heavy-duty wire and polypropylene bristles with a curved shape for hard-to-reach areas. Bendable, and fits onto telescopic poles.

OVERHEAD DUSTER WANDS

Feature electrostatically charged dusting head.

Rubbermaid®—Can be attached to flexible wand for simple dusting of hard-to-reach, irregular surfaces. Quick-connect mechanism converts wand into high duster to effectively dust hard-to-reach areas when used with mop handles (sold separately). Includes 1 launderable sleeve.

ProFlat Duster 75—30" long, extremely flexible handheld duster is perfect for narrow spaces. Includes 3 disposable electrostatic dusting sleeves and 1 machine-washable microfiber sleeve. Use wet or dry.
