Terms & Conditions – 2018

Minimum Order

There is no minimum order requirement.

Standard Terms -- Stock SKUs

Terms are prepay / Pro forma for all first-time customers, until credit has been established. Following credit approval, standard terms are Net 30 days from date of invoice. Terms are strictly enforced; accounts past due by 60 days or more will be placed on administrative Credit Hold, and shipments withheld.

Be advised: WLC is diligent about receiving payments by due dates as noted on each customer's invoice. International customers are encouraged to mail early, or to take advantage of our EasyPay options. These include:

- a. Additional discount for Prepayment
- b. 1%Net10th/30 days
- c. Payment options include check, credit card, direct deposit, and electronic wire / funds transfer (EFT). Note fees & service charges for latter are customer's responsibility. Please notify WLC of deposit or EFT details, so we may track & apply proper credit.

** Note: Three (3) late payments within the calendar year may result in suspension of any customer discount privileges. After six (6) months, account may be submitted for accounting re-review, and potential reinstatement of discount privileges. Please contact us with any questions.

In case of default, customer will assume all fees and, as necessary, administrative and/or legal costs associated with collection.

For customer convenience, Worldwide offers 5% discount for prepayment of orders (for which we gladly accept Visa, MC, checks, direct deposit, and electronic funds transfers (EFTs)). Alternatively, we offer 1%/10 Net 30 discount for early remittance. Please note prepay discounts are applied after (and separately from) merchandise discounts, to orders' bottom-line totals.

Standard Terms -- Custom Orders

Any non-standard SKU is considered a custom order. We require 50% - 100% deposit with PO, with any balance due prior to shipment. Additional requirements include finish approval (or customer finish samples or standard color code); and approval signature on Worldwide shop drawings and sales orders. Production leadtime commences on receipt of all prerequisites.

Worldwide can provide advance prototypes for designer / customer approval. Cost of prototypes is 3x quoted project unit price, the difference being credited against subsequent production purchase.

Custom orders are shipped FOB China, and often via costlier but expedient air delivery, unless otherwise arranged at time of quote or purchase. Custom orders are non-returnable, except for factory defects.

Shipping

Standard SKUs are shipped via FedEx Ground (for smaller pkgs); or motor freight common carrier for palletized shipments (generally, 36" diameter being the single-fixture cutoff between small package carriers and motor freight). Typically, Crystal Gallery fixtures of 33" dia. or smaller ship pre-assembled, where larger fixtures require field assembly. To avoid freight damage, glass arm series usually require field assembly & wiring of fixture arms. In addition to fixture frames, decorative crystal components may ship in one (1) or more additional cartons.

(Cont.)

Standard product is shipped FOB Hayward, CA. On request, SKUs may be air-shipped, FOB Origin (CA or China factory) at customer expense.

Domestic Freight Allowances are offered to Stocking Distributors only. Standard Freight Policies are as follows:

- a. Direct shipment is free to stocking distributors (or their freight forwarders) within the continental US and Canada, at the \$850.00 NET shipment level, and above. Note this will depend on stock qty's being on-hand.
- b. Freight charges will appear on all customer invoices, but may be deducted if FFA shipments are pre-paid, or paid within stated terms. FFA applies AFTER all other discounts are applied.
- c. Canadian and all international stocking distributors pay associated import duties and fees.
- d. Direct shipment is free to stocking distributors in Alaska, at the \$8K NET order level and above.
- e. Direct shipment is free to stocking distributors in Hawaii and the Caribbean, at the \$10K NET order level and above.
- f. Direct shipment is free to stocking distributors in Mexico, at the \$15K NET order level and above.
- g. Note freight allowances are for catalogued items only, and do not extend to Custom (non-standard) merchandise. Custom orders are subject to associated freight charges.
- h. While Worldwide does not impose handling fees for drop-shipment to 3rd party recipients (ie., end-users), associated freight charges do apply.

Damage

Where visible damage constitutes a large part of your order, Worldwide recommends you refuse shipment delivery. Please notify us within 24 hours, and we'll ship replacement material at no additional charge. Otherwise, in choosing to accept delivery, ensure that personnel notate all visible damage along with their signature on the carrier's BOL / Freight Bill. Worldwide must be notified of damage within 24 hrs. of receipt.

Additionally, Freight accepted with visible damage must be photographed to clearly indicate condition of carton exteriors, interiors, packaging, and damaged components / parts / merchandise. Please forward photos to Worldwide within 24 hrs. of damage receipt. All original factory packaging must be kept for carrier inspection.

More and more, carriers refuse to entertain & honor freight claims without Freight Bill notation, detailed photographs of damage to cartons and contents, and original packaging kept for inspection. As a result, Worldwide must now adopt these policies. Therefore, effective Sept. 1, 2014 we cannot compensate for visible freight damage, if above conditions are not met.

Concealed Damage: All received SKU's must be inspected for concealed damage, and factory notified of damage within 3 business days of receipt. Original packaging must be kept for carrier inspection. Freight claims cannot be pursued without all original factory packaging, and photo documentation as described above. Thank you.

Returns

Please contact your customer service representative for a factory RGA (Return Goods Authorization). Unauthorized returns may be refused.

Unopened, factory sealed merchandise may be returned to the factory within 14 days of receipt of shipment.

Factory sealed mdse. beyond 14 days of receipt may be returned at factory discretion, with a 25% re-stocking fee.

(Cont.)

A 25% restocking fee will be automatically accessed to any opened box. Credit cannot be issued should factory inspection reveal broken or missing parts, beyond those reported on RGA Request Form.

Fixtures not returned in the original factory cartons will not be accepted.

** Note all return shipping costs will be at customer expense. **

Limited Warranty

Worldwide Lighting Corporation warrants fixtures to be free of defect for a period of one year following shipment. Warranty is null and void if merchandise is not installed according to factory instructions, NEC guidelines, and applicable building codes and regulations. Warranty is also void if merchandise has been modified or used in a non-standard application.

Please contact Worldwide Lighting for a Request Form for either:

- (a) Replacement parts, if they'll suffice
- (b) A Return Goods Authorization (RGA) for repair, replacement, or account credit.

Return completed form to parts@worldwidelighting.net, or rga@worldwidelighting.net, respectively. You'll be contacted, and in the latter case, will be issued an official Worldwide RGA. A copy must accompany returned merchandise in order to properly receive credit.

** Note return freight charges are initially at customer expense. On factory confirmation of defect, reasonable freight charges will be credited. If no defect or problem is found (or if mdse. is returned in less than resalable condition), return freight charges will not be credited. **

Please note that while fixtures with integral LEDs (such as Madeline, Alice, Calliope, and Galaxy) are warranted, separate retrofit LED lamps (G9, as on Aramis,) are not included in Worldwide's fixture warranty.

Note warranty coverage does not extend to peripherals (air delivery, installation labor, scaffolding / equipment, transportation (freight), or other products and services not provided personally by Worldwide Lighting).

Backcharges will only be accepted and paid in the case of prearrangement and pre-approval by Worldwide Lighting Corp.

For custom and commercial projects:

Custom orders are non-returnable except for factory defects. In the unlikely case of defect or failure, Worldwide will receive one or a small qty of subject items for inspection, and repair or replacement at factory discretion. Note return freight charges are not subject to credit.

For large quantity issues, we may choose personal field inspection in order to best determine and/or undertake corrective action.

Effective January 1, 2018. Terms and Conditions subject to change without notice.
Please contact Worldwide Lighting Corporation for more information.

Notes:

Metal Finishes

In addition to our standard plated and painted metal finishes, we can supply most any finish at customer request (a sample or color code may be required). Minimum quantities apply. Please consult factory for pricing.

Dimensions

Stated dimensions reflect fixture bodies only. Chandeliers/pendants below 32" in dia. include an additional 6 feet of chain and wire. Fixtures greater than 32" include 8 feet of chain and wire.

Weight

For fixtures weighing more than 35 lbs., Worldwide strongly recommends physical support independent of standard outlet box.

Lamps

All lighting with integral LED's are warranted. Lamping not included in lamps with G9 halogen bulbs (such as Candella, Blossom and Botella) or E12 incandescent bulbs (such as Starburst)

Affiliations

Worldwide is a proud member of the American Lighting Association (ALA).

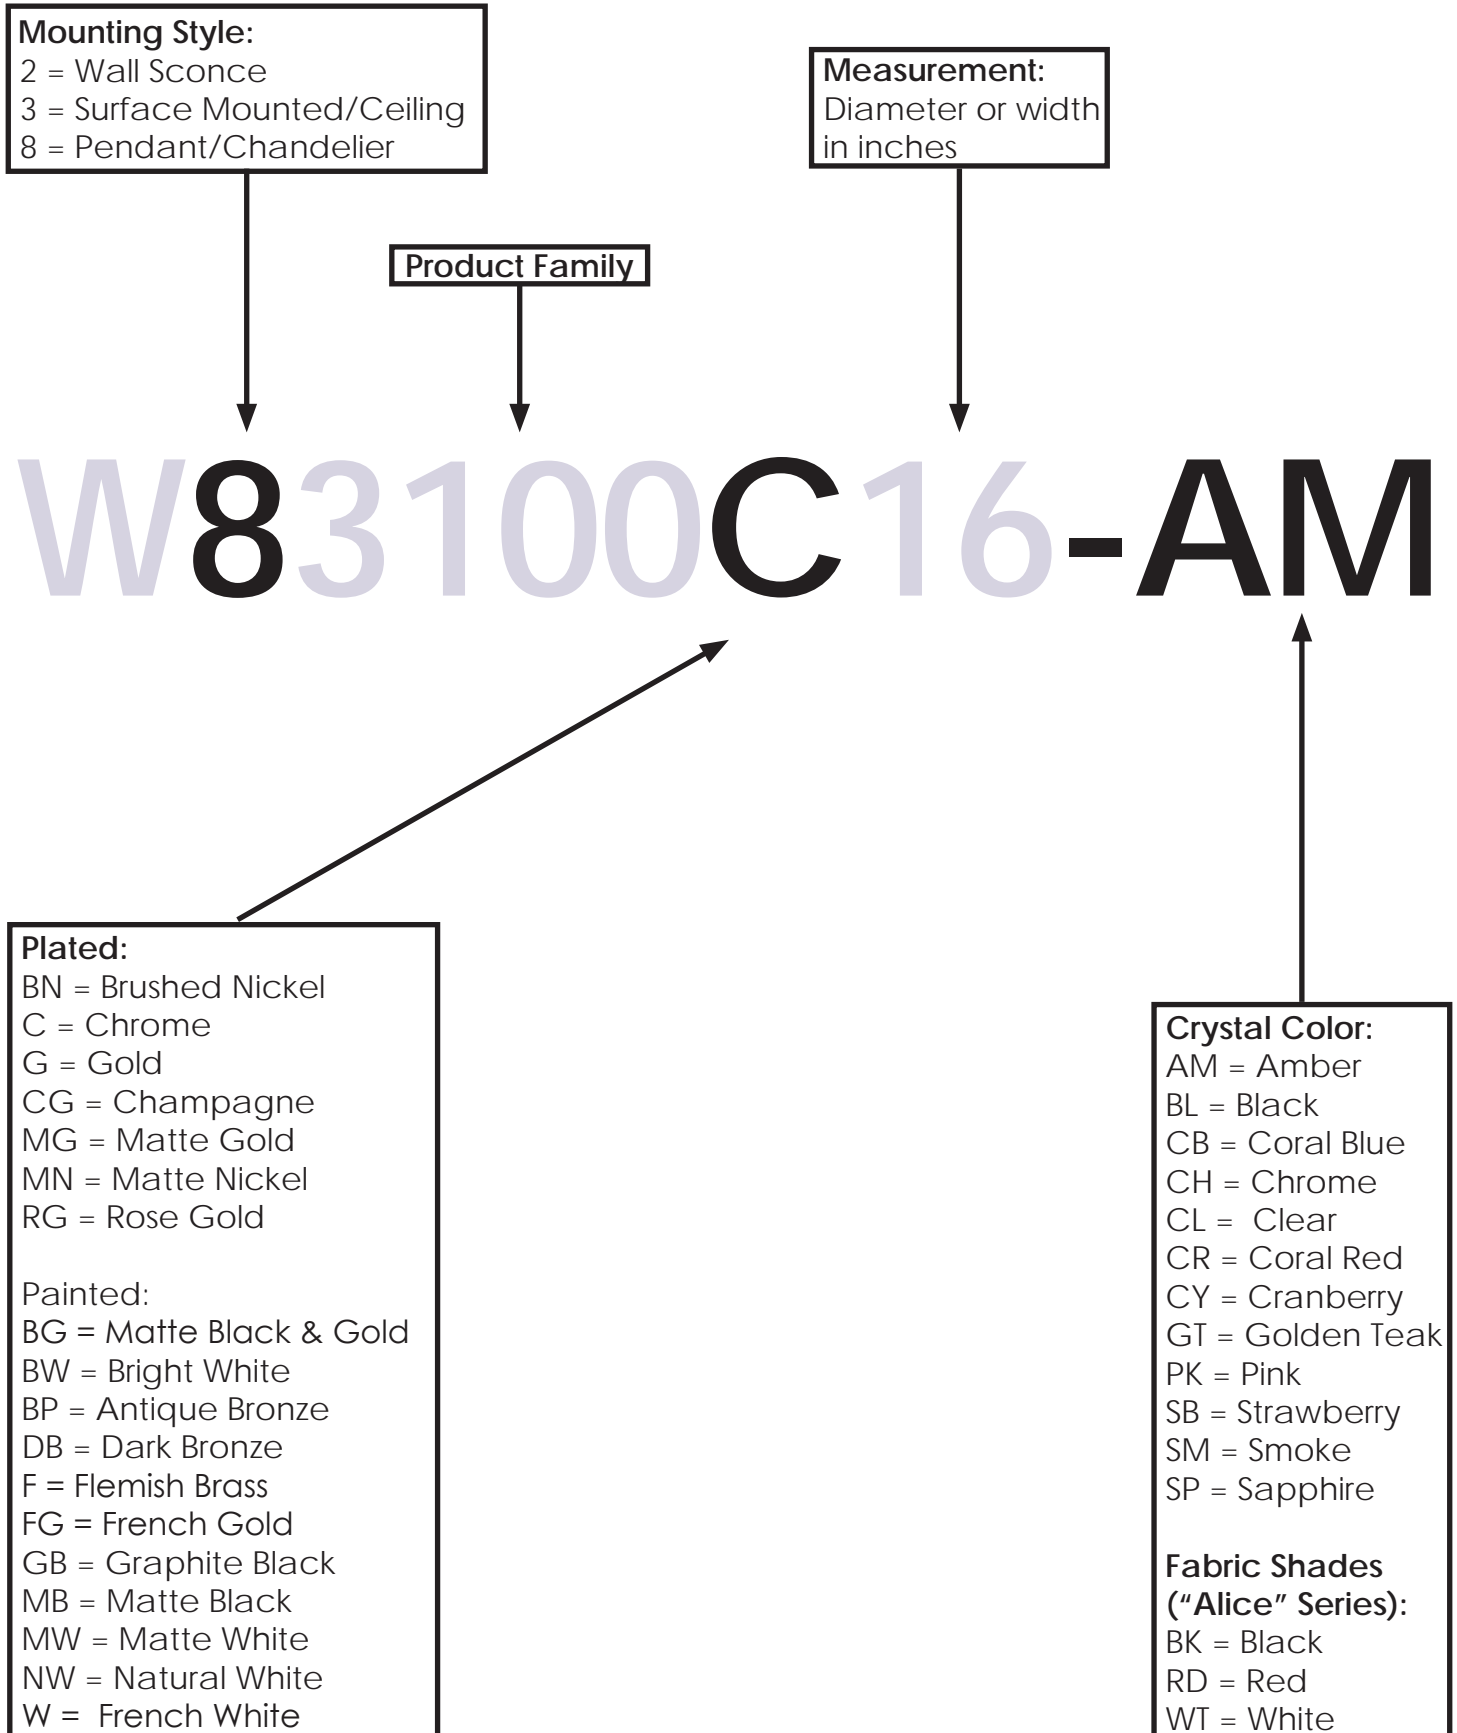

Listings

All Worldwide products are UL and CUL listed. Certain wall sconces are ADA compatible.

PRODUCT ORDERING NOMENCLATURE

A. Apollo Pendant

W33870

Dimensions: D4" H96"
