

Insight™

Sharp's unique Insight™ Microwave Drawer™ design is now available in a 30" manual drawer model. It places the microwave at the most convenient height for frequent use. So now microwave cooking is easier for every cook in the family, with no need to remove the dish from the oven to check, stir or turn the food. Sharp's advanced sensor technology eliminates the guesswork often associated with microwave cooking. The Microwave Drawer is large enough to hold a 9" x 13" oblong dish. And the Auto-Touch™ control panel is angled so it is more convenient and easier to use.

With fresh thinking into how consumers really use their kitchens, Sharp puts innovation and cooking convenience at your fingertips. The Insight Microwave Drawer innovation: it's the most exciting idea yet for where to place the microwave.

### Design Flexibility

The world's first Microwave Drawer is built-in ready for easy installation without the need for an additional kit. It eliminates awkward installations and cluttered countertops, making it ideal for open-plan kitchens and islands.

### Innovative Technology

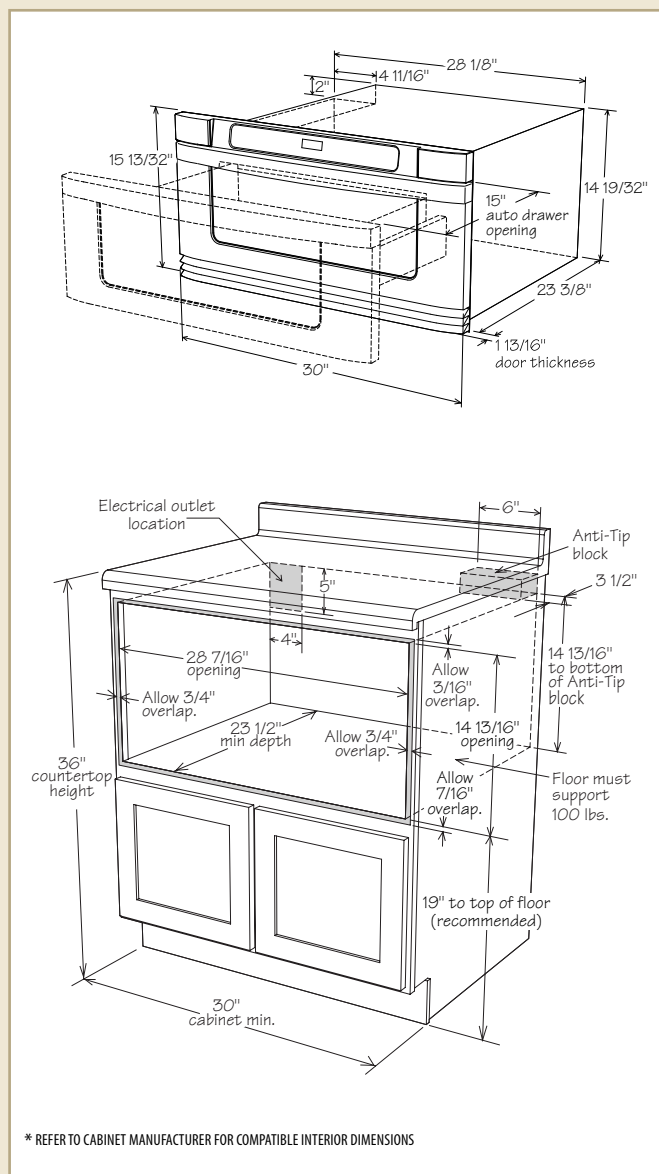

The Microwave Drawer appliance provides superb access, placing the microwave at a perfect height. Its microwave sensor technology eliminates guesswork when cooking or reheating.

### Convenience and Accessibility

The angled touch controls are convenient and easy to use. In addition, there is no need to remove the dish from the oven to check, stir, or turn the food.

### Sophisticated Style

The large viewing window, along with an integrated handle and angled touch controls, results in a sleek, sophisticated appearance that's an ideal complement to any kitchen decor.
