Pro Chemicals™, a platform of Pro Products LLC., has provided reliable, high quality, cost effective solutions for various water quality needs since 2000.

We offer a wide range of solutions that focus on rectifying problem water and maintaining the performance of water quality equipment. Pro Chemicals formulates, manufactures, packages, and markets its products worldwide from Fort Wayne, Indiana through an authorized distributor base.

We are focused on customer service with a strong internal customer support staff and marketing support programs designed to meet each distributor's business needs. Pro Chemicals, striving to clean, restore and maintain water quality.

Water Softener Cleaners

Pro Chemicals provides a diverse portfolio of water softener cleaners designed to clean, restore and maintain the life of water softeners. These products are formulated to treat water softeners with iron or for daily preventative maintenance.

Rust Out®

Water Softener Cleaner/Iron Remover

Rust Out® chemically removes iron and rust buildup that coats the resin bed and fouls the water softener. Rust Out changes rust and iron into a clear solution that easily rinses away and does not contain harsh or abrasive chemicals that damage fiberglass, porcelain or acrylic finishes. The advanced formula contains more than five chemicals that are formulated to clean, restore and maintain the life of water softeners. Rust Out can also be used to clean tough rust stains from toilets, sinks, tubs, white clothes and exterior surfaces.

Product #	Unit Size	Case Pack
RO24S	4 oz.	24
RO12N	1.5 lb.	12
RO65N	5 lb.	6
RO50N	50 lb.	1

Softener Mate®

All Purpose Water Softener Cleaner

Softener Mate® is a unique blend of chemicals formulated to remove limited iron, manganese, silt, metal particles and organic compounds that cause softener inefficiencies. Regular use of Softener Mate will restore the softener back to peak efficiency and maintain the life of the unit. For best results, layer Softener Mate between each bag of salt or manually add during regeneration to prevent mineral build up.

Product #	Unit Size	Case Pack
SM24S	4 oz.	24
SM12N	1.5 lb.	12
SM65N	5 lb.	6

Res Care®

Liquid Resin Cleaning Solution

Res Care® is a specially formulated liquid cleaner designed to remove limited iron, manganese, silt, metal particles and organic compounds that cause softener inefficiencies. Regular use of Res Care will restore the softener back to peak efficiency and maintain the life of the unit. For best results, use a Res Care Automatic Feeder or manually add during regeneration to prevent mineral build up.

Liquid

Product #	Unit Size	Case Pack
RK32N	1 qt.	12
RK41N	1 gal.	4

Feeder

Product #	Unit Size	Case Pack
WF05N	0.5 oz. per day	1
WF10N	1 oz. per day	1

Green Sand Filter Regenerant

Pro Chemicals provides two unique blends of green sand filter regenerants designed to clean, restore and maintain the life of green sand iron filters. These unique blends are powerful oxidants that are also effective for use when filtering manganese or hydrogen sulfide.

Pot Perm®

Green Sand Iron Filter Regenerant

Pot Perm® is a strong oxidizing agent that converts dissolved iron and/or manganese to insoluble oxides which can be easily removed through filtration. Pot Perm regenerates and oxidizes greensand iron filter media restoring the exchange capacity. The most common method of introducing Pot Perm to the filter involves making a solution and applying automatically or manually at regular intervals.

KC02N	2 lb.	6
KC65N	5 lb.	6
KC55N	55 lb.	1

Sanitizers & Disinfectants

Pro Chemicals provides superior products formulated for sanitization and disinfection. These products are specialized for use in common water treatment equipment or in wells.

Sani-System™

Liquid Sanitizer Concentrate

Sani-System™ is the only NSF & EPA approved sanitizer for use in water softeners, reverse osmosis units and water coolers. Sani System is proven to kill 99.9% of harmful bacteria without the use of chlorine, oxidizers or acids that can harm water softener equipment parts and resin. Each premeasured packet is a concentrated formula that sanitizes the equipment in just 60 seconds.

Product #	Unit Size	Case Pack
SS24N	0.5 fl. oz.	24
SS96N	0.5 fl. oz.	96

Chlor Pel®

Oxidizer & Well Sanitizer

Chlor Pel® is an EPA approved, blended pellet, designed to disinfect and destroy certain disease-causing organisms found in water. It is formulated for use in new wells, wells that have had service work, cisterns, storage tanks and water lines. Chlor Pel is compatible with most brands of dry pellet chlorinators to prevent or treat iron algae, harmful bacteria, disease-causing pathogens, hydrogen sulfide and other odor-causing agents.

CP45N	5 lb.	4

Water Neutralization

Pro Chemicals provides superior products designed to clean, restore and maintain the quality of water. The specialty line of problem water care solutions are designed to raise or the lower pH or protect against iron & sulfur dioxide. These products can be administered through chemical injection systems or manually.

Ban T[®]

Alkaline Water Neutralizer

Ban T[®] is specifically formulated to effectively lower pH and remove iron and other contaminants from fouled water softeners. Ban T should be used as preventative maintenance on all water softeners in areas with moderate iron content to clean, restore and maintain the life of the softener. Ban T is an environmentally-friendly cleaning agent that removes hard water deposits and moderate iron staining from household fixtures.

Product #	Unit Size	Case Pack
RU15N	1.5 lb.	12
RU64N	4 lb.	6
RU45N	45 lb.	1

Neutra Sul[®]

Powerful Oxidant

Neutra Sul[®] is a strong oxidant for use when filtering iron or manganese or treating hydrogen sulfide. Neutra Sul is also effective in temporary cleaning and disinfecting of a water supply. For best results, Neutra Sul should be introduced into the water supply from a sealed container using a chemical injection pump.

Product #	Unit Size	Case Pack
HP41N	1 gal.	4
HP22N	2.5 gal.	2

Neutra 5[®] & Neutra 7[®]

Acid Water Neutralizer

Neutra 5[®] is a highly alkaline compound which neutralizes acid found in water systems. This helps to eliminate corrosion from piping, pressure tanks, water heaters and fixtures. A Neutra 5 solution injected into your water system will neutralize acid water and eliminate corrosion problems available in lite and dense blends.

Neutra 7[®] is a proprietary alkaline blend which neutralizes acid water and keeps the injection point clean. This helps to eliminate corrosion of piping, pressure tanks, water heaters and fixtures without the hassle of constant cleaning of calcium build-up.

Product #	Unit Size	Case Pack
SA64N	4 lb.	6
SA45N	45 lb.	1
SA45L	45 lb.	1
SP45N	45 lb.	1

Neutralizer Blend[™]

Strong pH Adjustment

Neutralizer Blend is a unique blend of highly alkaline compounds designed to neutralize extreme acid water. This unique blend is formulated to eliminate corrosion of piping, pressure tanks, water heaters and fixtures. Neutralizer Blend is designed for use in acid neutralizer units.

Product #	Unit Size	Case Pack
NB50N	50 lb.	1

Scale & Corrosion Control

Pro Chemicals provides a diverse portfolio of scale & corrosion control solutions designed to restore and maintain the life of water systems and equipment. These products are formulated to treat iron, hardness, scale build-up and corrosion.

Poly 4[®]

Powder Corrosion Control & Sequestrant

Poly 4[®] sequesters iron and manganese to reduce or eliminate iron staining in potable water, irrigation systems and other areas where unsightly iron staining is to be prevented. Poly 4 also prevents corrosion through the water system by coating pipes and fittings and reduces copper leaching. This formulation holds the dissolved iron in solution, keeping the water clear, and preventing iron staining.

Product #	Unit Size	Case Pack
PA65N	5 lb.	6
PA50N	50 lb.	1

Poly Guard[®]

Extended Release Corrosion Control Crystal

Poly Guard[®] prevents hard-water scale and iron build-up in plumbing, equipment and appliances by forming a protective coating on the surface areas with continual exposure to water. Poly Guard is typically administered through our patented refillable cartridge. This cartridge is compatible with most filter housings and will treat up to 30,000 gallons of water, lasting up to six months.

Crystals

Product #	Unit Size	Case Pack
GP63N	3 lb.	6
GP50N	50 lb.	1

Cartridge

Product #	Unit Size	Case Pack
GP10C	1.5 lb.	6

Specialty Cleaner

Pro Chemicals provides a superior specialty cleaner designed to clean, restore and maintain the life of water using appliances. This cleaner is designed to dissolve mineral deposits and increase overall efficiency.

Still Clean[®]

Distiller Cleaner

Still Clean[®] is a specially formulated crystal blend designed to dissolve mineral deposits in water distillers, humidifiers, steam irons, coffee makers and much more. Still Clean will clean mineral build-up, restore energy efficiency and maintain the life of water using appliances.
