- ❖ LIGHTWEIGHT, STACKABLE CONSTRUCTION. CAN BE SHIPPED UPS OR COMMON CARRIER

THE DETAILS

The unique “Topp Twist Lock” cover designs makes every installation a breeze. Simply place the cover in position and twist for a tight and secure fit.

You have three cover choices to choose from, Solid “TOPP-LOCK”, Slotted “TOPP-LOCK”, or our Radon Gas-Tite Steel Cover. You will find our Solid “TOPP-LOCK” and Slotted “TOPP-LOCK” will reduce your installation and maintenance cost.

The “TOPP-LOCK” covers are manufactured with the same high quality polyethylene used throughout our line and assures you years of trouble free performance. The unique properties of this new design is typical of our capability for providing products that make sense, and make a difference in the waste water industry.

THE SPECIFICATIONS

Part Number: B2300TL (18”x24”)
Weight: 10 LBS U.S Gal: 26
Wall Thickness: 3/16”

Part Number: B2400TL (18”x30”)
Weight: 14 LBS U.S Gal: 34
Wall Thickness: 3/16”

COVER OPTIONS

For Part #: B2300TL
C23WTL - Solid Poly Cover, Cover weighs 5 LBS
C23STL - Solid Poly Cover, Cover weighs 5 LBS

For Part #: B2400TL
C24WTL - Solid Poly Cover, Cover weighs 5 LBS
C24STL - Solid Poly Cover, Cover weighs 5 LBS

POLYETHYLENE CORRUGATED STRAIGHT WALL SUMP BASINS

THE STANDARD FEATURES

- ❖ CONSTRUCTED OF DURABLE, CORROSION-RESISTANT POLYETHYLENE RESIN
- ❖ DESIGNED FOR NEW CONSTRUCTION AND RETROFIT APPLICATIONS....
- ❖ ENGINEERED TO RESIST BUCKLING
- ❖ ONE PIECE DESIGN ENSURES ENVIRONMENTAL SECURITY
- ❖ EXCEEDS ALL INDUSTRY STANDARDS
- ❖ LIGHTWEIGHT, STACKABLE CONSTRUCTION. CAN BE SHIPPED UPS OR COMMON CARRIER

THE DETAILS

Each Corrugated Straight Wall Polyethylene Basins is corrosion resistant. A unique property of the Topp Corrugated Straight Wall Polyethylene Basin is its ability for providing duality of use, that of accommodating pedestal or submersible pumps.

Up to 4 inlets can be employed without any modifications.

By virtue of its corrugated design the Topp Corrugated Straight Wall Polyethylene Series is perfect for those applications requiring increased strength and extra long-term reliability.

THE SPECIFICATIONS

Part Number: B2500LP (16"x24")
Weight: 7 LBS U.S Gal: 22
Wall Thickness: 3/16"

Part Number: B2600LP (16"x30")
Weight: 12 LBS U.S Gal: 26
Wall Thickness: 3/16"

COVER OPTIONS

For Part #: B2500LP
C25WLP - Solid Poly Cover, Cover weighs 2 LBS
C25SLP - Solid Poly Cover, Cover weighs 2 LBS

For Part #: B2600LP
C26WLP - Solid Poly Cover, Cover weighs 2 LBS
C26SLP - Solid Poly Cover, Cover weighs 2 LBS
