

Heavy-Duty Chain & Cable Lubricant

PRODUCT DESCRIPTION:

JAX Heavy Duty Chain & Cable Lubricant is a heavy-duty, multi-purpose lubricant formulated to be the best available for rigorous industrial applications. A custom formulation enables the lubricants to reach deep inside to the inner strands of cables and wire rope as well as the pins and rollers of industrial chains, where lubrication is critical. With proper application, JAX Heavy Duty Chain & Cable Lubricant drastically reduces internal friction and extends the life of chains and cables by 200% or more.

PRODUCT BENEFITS:

- Water-Repelling and Rust-Prevention
- Performs Well Outdoors when Exposed to the Elements
- Corrosion-Resistant
- Contains Graphite and Molybdenum Disulfide (“Moly”)

APPLICATION:

Uses for JAX Heavy Duty Chain & Cable Lubricant include:

- Construction equipment
- Industrial chains
- Farm machinery
- Conveyor chains
- Wire ropes and slings
- Roller and lift chains on material handling equipment
- Gates
- Overhead cranes
- Elevators
- Tower cranes

For best results, allow 10-15 minutes of set-up time.

TECHNICAL DATA:

| | | |
|-------------------|---|-------------|
| Propellant: | Propane and n-Butane | |
| Flash Point: | 430°F (221°C) Grease, typical | ASTM D 92 |
| Pour Point: | 10°F (-12°C) Grease, typical | ASTM D 92 |
| Specific Gravity: | 0.886 for Concentrate, typical | ASTM D 1298 |
| Spray Pattern: | Shotgun Blast | |
| Viscosity: | Grease: 300-350 SUS @ 100°F, typical | |
| Texture: | Dark Grease with Fine MoS ₂ and Graphite Particulate | |
| Appearance: | Black Grease | |
| Consistency: | Light | |

AEROSOL PACKAGING:

Aerosol, 11 oz. net wt. (12/cs) - #JAX104

BULK PACKAGING:

Trigger, 16 fl. oz. (12/cs) - #00200-007

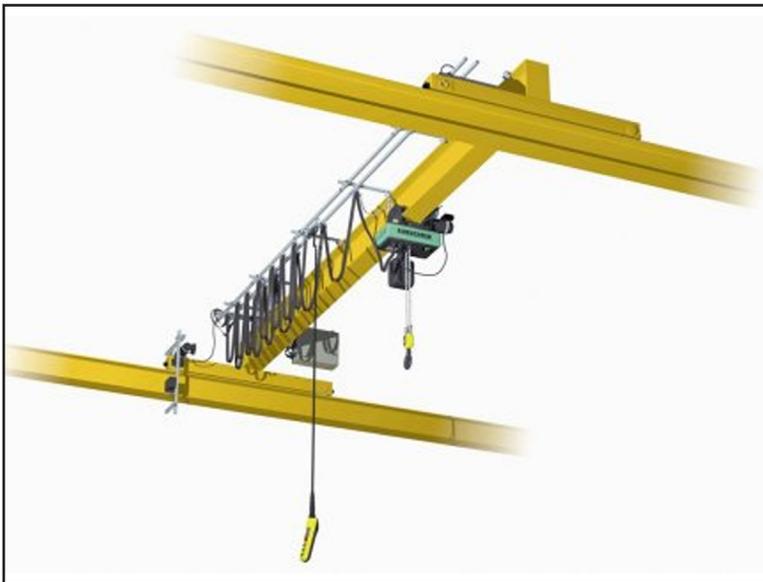

Gallon Bottle (4/cs) - #00200-004

Pail, 35 lb. - #00200-035
