

HEAT SEAL STIK®

Premixed Epoxy Sealer for use on refrigeration systems

Pinhole leaks and small cracks in refrigeration coils can force a system to be down for days. HEAT-SEAL STIK® was specifically made to seal these small holes so that you can get your system up and running, even if you need to eventually replace the appliance. HEAT-SEAL STIK works with heat - no mixing of epoxy compounds necessary.

Green Benefits

LIFTER® WIPES

General purpose cleaning wipes for the job site

At the end of the job, clean off your hands, tools, machinery, and more with Lifter® Wipes. With a smooth side for gentle cleaning and a rough side for hard-to-clean areas, Lifter® Wipes are the only wipes you need. They are easy to use; simply use the wipe and throw it away - no residue left behind, and no drying necessary!
