

AIR CONDITIONER

DRAC14

DURASTAR™ residential air conditioners are built to perform both efficiently and quietly, delivering home comfort you can count on.

Durable Construction

The DRAC14 is constructed with a sturdy louvered steel cabinet to protect the condensing coil fins from yard hazards, weather and corrosion, so you can be confident in the way it performs.

Quiet Operation

Several features contribute to quiet operation and better overall performance. The motor mount/grille combination protects the fan motor from the elements and also reduces sound and vibration. The discharge pattern of the top grille provides minimum air restriction, resulting in quiet fan operation. The DRAC14 also features a one-piece drawn and painted base pan. This pan elevates the coil off the pad helping minimize corrosion while also reducing sound.

Efficient Performance

The air conditioner uses an innovative wrap-around outdoor coil which allows improved airflow and heat transfer and reduces energy consumption.

Limited Warranty Information:¹

Parts - Five (5) Years

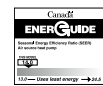

AVAILABLE SIZES:

1.5 – 5 TONS

COOLING EFFICIENCY:

14 SEER /12.5 EER

¹ For complete details of the limited warranties, including applicable terms and conditions, contact your local contractor or go to DURASTAR.com for a copy of the product warranty certificate.
