-------------------------------------------------------------------------------------	-------------------------------

## APWA Uniform Color Codes

The American Public Works Association (APWA) recommends the following guidelines be used when marking underground facilities.

	White = Proposed Excavation
	Pink = Temporary Survey Markings
	Red = Electric Power Lines, Cables, Conduit and Lighting Cables
	Yellow = Gas, Oil, Steam, Petroleum or Gaseous Materials
	Orange = Communication, Alarm or Signal Lines, Cables or Conduit
	Blue = Potable Water
	Purple = Reclaimed Water, Irrigation and Slurry Lines
	Green = Sewers and Drain Lines

## You Benefit From Our Exacting Prescolene™ Process

A key reason for Presco's sterling reputation in the field is the exclusive Prescolene™ manufacturing process at our Sherman, Texas facility. (Yes, **all** of our manufacturing is done right here in the U.S.A.) The exacting Prescolene™ process ensures total control over product quality and customization for our customers. It also fosters innovation and creativity, often in the form of new formulations and customized inks and products to meet each customer's unique specifications.

### Product Disclaimer

Presco is committed to ongoing product improvement. Please be advised that specifications, performance, parameters, appearance and dimensions of Presco Marking Products are subject to change without notice. Information provided about Presco Marking Products is based on testing conducted by Presco under controlled conditions and is intended for comparison and general information purposes only. The conditions of actual use may vary and are beyond Presco's control – we cannot guarantee the same results will be obtained under different conditions. Please contact a Presco representative for up-to-date information.

### Return Policies

All shipments should be inspected upon receipt. Any product returns must be completed 30 days from the date received. If product needs to be returned, Presco must be contacted for return authorization. The RGA number must accompany all return shipments. Product returned devoid of Presco culpability must be shipped at the customer's expense. Presco will pay transportation charges and apply credit for merchandise when an error in manufacturing is determined. A 20% restocking fee will be charged for all products returned in sellable condition. Custom manufactured products cannot be returned.

## Non-Detectable Underground Warning Tape

### Material Thicknesses

4 and 6 Mil

### Roll Widths

3" and 6"

Custom widths available upon request.

### Roll Lengths

1,000' and 3,000'

Custom lengths available upon request.

### Minimum Order

Call for details.

Presco Non-Detectable Underground Warning Tape prevents damage to underground utility lines during excavation. Following code parameters, bury this tape above electrical lines, gas pipes, communication cables and other utility installations. Resistant to underground elements, this heavy metal-free co-extruded polyethylene tape serves as a highly visible proximity warning device that will not turn black over time.

- Heavy metal-free
- APWA colors provided, see page 1 for codes
- Long-lasting colors to protect utility lines
- Exceeds all industry specs, see page 10
- Private labeling, UPC coding and other custom packaging requirements available

#### PE Material Colors

See Color Legends for more details, page 1.

#### Standard Ink Color

See Color Legends for more details, page 1.

### Presco Prints Non-Detectable Underground Warning Tape

Presco has numerous mats with various standard legends available to our customers (visit [www.presco.com](http://www.presco.com) for a current listing of mat legends). Upon request, custom mats can be produced for your specific needs. Custom mat charge will apply. Presco's proprietary printing process requires controlled parameters. Please ask a Presco representative for details before placing your order.
