

PIPE FREEZING KIT

ARCTIC POLAR SYSTEM® PIPE FREEZING KIT

Designed specifically for the professional, Wheeler-Rex Pipe Freezing Kits will rapidly form an ice plug in static water lines eliminating the need to drain down a system to make a repair. Ice plugs will last 15 to 20 minutes and can be easily renewed.

Kit comes complete with jackets for double freezes. No tools are required to set up and complete a freeze. An easy-to-use scale is included to ensure economical operation. Packaged in a convenient carrying case.

Polar Spray is non-toxic, non-flammable and ozone friendly.
