Product Overview & Guides

Whether you're cleaning up grease or soaking up spills, it pays to use the best supplies. Trust the WypAll® Brand, the one that sets the standard for excellence in cloths. WypAll® X80 Extended Use Cloths feature innovations like high-tech HydroKnit fast-absorbing material and are durable for scrubbing. These contaminant-free commercial cloths are a favorite replacement for industrial cloth towels, which can harbor dangerous chemicals, such as lead (In a 2003 Gradient study, 100% of the sampled laundered shop towels tested, lead was detected at levels that may exceed health based exposure guidelines.). WypAll® X80 are made of soft pulp fibers, bonded to a polypropylene base sheet for absorbency and durability, making them suitable for removing dirt, oil, grime and solvents in industrial and manufacturing businesses. The reusable cloths are reinforced for strength when wet and dry. These bulk cloths are a great alternative – safer and more efficient – to replace laundered rental shop towels or cleaning towels. Use them for heavy duty machine- and part-wiping, wiping metal shavings, prepping surfaces with solvents and cleaning rough surfaces. After all, every business gets dirty. But for the toughest grease and grime, you can trust WypAll® X80 Cloths.

- This blue jumbo roll contains 475 WypAll® X80 Extended Use Cloths sheets (each is 12.5" x 13.4")
- Proprietary HydroKnit technology is fast absorbing to wick away moisture
- Durable wipes absorb more water and oil than textile shop rags and stay strong for superior performance
- Disposable cloths clean oil, dirt, grime and solvents, while remaining resistant to harsh cleaning agents
- These wipes are fresh and clean every time and are a safer alternative to laundered rental shop towels or cloth rags (which can harbor dangerous chemicals like lead, even after washing, according to a 2013 Gradient study)
