

NOTICE

Temporary Water Shut Off

Unfortunately it will be necessary to shut off your water service for a period of time while we make needed repairs to the system.

Service will be shut off between the hours of _____ and _____

On _____

While we realize this is inconvenient for our customers it is necessary for us to do this to make the repairs. We will try to make the shut down as short as possible.

When the water service returns there may be some discoloration in the water due to the lines being opened up. We recommend not doing any laundry or dishwashing until the water runs clear. Simply open a tap in your building or house and run the water until it comes out clear.

If you have concerns or questions regarding this shut down feel free to call us.
