

Pollardwater™ Water Lagoon Bacteria

Product No. PLB600

PLB600 contains a blend of microorganisms, biological nutrients, and stimulants selected to aid with sludge reduction in lagoon systems. PLB600 reduces dredging costs and helps remove excess nutrients which can lead to poor water quality. Other benefits include grease and scum control, odor reduction, and faster startups.

Application Instructions

For Facultative Lagoons

Day 1 through Day 5 – Apply 20 lbs. per acre per day

Day 6 and up – 1 lb. per acre per week

For Anaerobic Lagoons dosage rates are based on volume of the lagoon.

Less than 100,000 gallons: 1 lb. twice per week per 5,000 gallons

More than 100,000 gallons: ½ lb. once per day per 5,000 gallons

Storage

Keep product dry. Keep from freezing. Store below 100° F.

Safety

May form dust concentrations in air. Avoid inhaling. Do not swallow product. If swallowed, do not induce vomiting. Drink water or milk. Clean hands after using product. Avoid eye contact. Flush eyes for 15 minutes if contact occurs.

Lot # _____

Net Weight: _____ 25 lbs. _____

8oz Water Soluble Bags (50)
