

Canfield Technologies, Inc.

95% Tin/5% Antimony Wire Solder

Canfield's 95/5 is a lead-free solder safe for potable water systems as well as other applications (heating and air conditioning) with or without lead-free requirements.

Alloyed of virgin tin and antimony, 95/5 meets both Federal and ASTM Specifications. It meets or exceeds all other applicable Government and Plumbing Code standards for strength, purity and potable water system applications. Meets ASTM B32.

<u>Melting Range:</u>	450° - 464° F (Solid to Liquid)
<u>Shear Strength:</u>	6,200 PSI (Room Temperature)
<u>Tensile Strength:</u>	5,900 PSI (Room Temperature)
<u>Density:</u>	.262 Pounds Per Cubic Inch

Available in both bar and solid wire. Packed 50 lbs. per carton. Available in spool sizes 1/4 to 20 lbs.
