- 18" long T handle
- 1/4" plate for wrench end

PRACTICLE USE

APPLICATIONS

- Curb Stop Keys are a water works tool used for accessing and turning on and off a Curb Stop. Curb Stop is the water works and water utilities industry term for the main shut-off valve of a property's water line. The Curb Stop is the point where responsibility changes between a city and a property owner. Curb Stops are located underground, inside of a Curb Box, this makes a Curb Stop Key necessary for accessing and turning the Curb Stop

Warranty and Codes

RAPTOR Waterworks tools are covered by a standard 1 year product warranty against defects in materials and workmanship. In an effort to continually improve our products, FEI will make design changes from time to time. We reserve the right to ship newly designed product to fill any order unless it is agreed in writing to do otherwise
