FOR NON-FREEZE APPLICATIONS

The Model 101 is an anti-siphon protected wall faucet designed with the classic Woodford look for irrigation purposes in mild climate areas. The Model 101 utilizes Woodford atmospheric vent and patented check to provide anti-siphon protection. This feature eliminates the need for an add-on vacuum breaker that restricts flow.

Anti-Siphon Wall Faucet

Model 101

SPECIFICATIONS:

- **ASSE** Standard 1019-Type C approved
- **UPC / IAPMO** listed
- Anti-siphon with integral check and atmospheric vent
- Not intended for continuous use
