**DOUBLE, HORIZONTAL, ADJUSTABLE
WATER CLOSET CARRIER**

Specification: MIFAB® Series MC-10D double, horizontal, adjustable water closet carrier with lacquered cast iron fitting, 4" (102) no hub waste, 2" (51) no hub vent connection, lacquered cast iron gasketed adjustable faceplates, universal floor mounted cast iron foot supports, adjustable 8" tapered thread ABS nipples with integral test caps, neoprene bowl gaskets, hardware, threaded rod protectors and polished chrome plated finishing cap nuts.

Function: Used with back to back off the floor plumbing fixtures that are wall mounted and have no contact with the finished floor. The closet carrier is completely concealed within the wall and supports the load of the fixtures through a faceplate and foot support system that is anchored to the floor. Sanitation underneath the fixtures is more efficiently and economically maintained when installed off of the floor compared to floor mounted.

Note: 14 1/2" (368) minimum space required between front of foot supports. 9" (229) minimum in wall space required between back of in wall foot supports.

Note: Foot supports and faceplate are assembled at the factory before shipment in the typical siphon jet water closet configuration and are reversible for the blowout water closet design.

Note: 8" tapered thread ABS nipple shipped standard with MC-10 Series carriers. The universal assembly accepts all nipple variations, rolling thread (-OR), cast iron (-CI) and tapered thread ABS with adjustable horn (-AH).
