TECTITE™ Flexible Hoses

Flexibility at Your Fingertips

Fix existing supply line and water heater connection problems in seconds with TECTITE™ Repair Hoses and Water Heater Connection Hoses.

FAST
TECTITE™ fittings push together in seconds to create a leak free seal and can be used on Copper, CPVC, and PEX. The FIP connection requires just a twist of the wrench.

SIMPLE
No need to worry about special installation tools, glues, wire brushes, flux, flame, or soldering.

FLEXIBLE
The PVC hose liner and Stainless Steel Braid will bend freely without kinking or crimping, allowing you to work in even the tightest locations.

- PVC liner eliminates kinking or crimping
- Lead-free design meets or exceeds current low-lead/no-lead state requirements
- Can be used with Copper, CPVC, and PEX
- No special installation tools required
- Reduced installation time
- EPDM o-ring seal
- Nylon guide ring
- 316 Stainless Steel grab ring
- Fittings are removable and reusable
- Fitting bodies meet ASME B16.22 and B16.18 performance standards
- Manufactured in compliance with ASME A112.18.6 and CSA B125.3

SMALL INVENTORY COMMITMENT
Four part numbers cover all applications

HEAT FREE
Reduces fire hazard Push-fit technology

CLEAN
No glues, fluxes or solder needed

NO CONSUMABLE MATERIALS
Reduces material cost & storage
