UNSPSC (4.03)	40141800
UNSPSC (SWG01)	40141800

**!** The complete catalog contents must be reviewed to ensure that the system designer and user make a safe product selection. When selecting products, the total system design must be considered to ensure safe, trouble-free performance. Function, material compatibility, adequate ratings, proper installation, operation, and maintenance are the responsibilities of the system designer and user.

**⚠** Caution: Do not mix or interchange valve components with those of other manufacturers.
