Pressure-balancing Shower Valve Trim

### K-T10276-4E

### **Technical Information**

All product dimensions are nominal.

### Showerhead:

Rated maximum flow: 2 gal/min (7.6 l/min)

#### Notes

Install this product according to the installation guide.

NOTICE: Risk of product damage. Long screws, for installing trim, can damage the K-2971-KS valve. Consult the trim installation guide to verify if the thin wall installation kit (88526) is needed.

Install Rite-Temp valve according to valve installation guide.

Avoid cross-flow conditions. Do not install shut-off device on either valve outlet.

Cap shower outlet if deck-mounted spout, diverter, or handshower is connected to the spout outlet.

Install straight pipe or tube drop of 7" (178 mm) to 18" (457 mm) with single elbow between valve and wall-mount spout.
