GE Profile™ Series 30 in. Single Wall Oven with Advantium® Technology

Advantium wall oven/GE Profile™ Series cooking tower dimensions and cabinet installation information (in inches)

Note: Cabinets installed adjacent to wall ovens must have an adhesion spec of at least a 194°F temperature rating.

Note: 2" minimum between cutouts when installed above warming drawer or single wall oven.

Installation Information:

Before installing, consult installation instructions packed with product for current dimensional data.

Note: Cabinets installed adjacent to wall ovens must have an adhesion spec of at least 194° F temperature rating.

A=Allow 1" overlap of oven over bottom edge of cutout.

B=Allow 11/16"-3/4" for overlap of oven over side edges of cutout.

Note: Advantium 240 volt models cannot be installed under 36 inches height.

Note: Use of the accessory drawer will replace the bottom trim piece for applicable installations. Please see installation instructions for full details.

PSB9240SF

GE Profile™ Series 30 in. Single Wall Oven with Advantium® Technology

Preparation WITH an Accessory Drawer

Prepare the opening

The Advantium 240V can be installed in combination with other GE/Monogram appliances. Always follow each product's Installation Instructions to complete the installation.

Single Oven Installation:

Order a 30" wide single oven cabinet or cut the opening in a wall to the dimensions shown.

- * For existing cutouts, a maximum width of 28-1/2" is acceptable. If the opening is slightly wider, secure a furring strip on each side of the cutout for securing the oven.
- Always maintain 36-3/4" minimum height from the floor to the cutout in any single or combined installation.
- Allow 3/4" to 2-1/8" case trim overlap on the sides and 7/8" overlap on the bottom of the opening for all models. The amount of overlap on the sides depends on the actual cutout width. Allow 1-1/4" case trim overlap on the top for models PSB9240 and for models ZSC2200, ZSC2201 and ZSC2202.
- Oven overlaps will conceal cut edges on all sides of the opening.

Prepare the opening (cont.)

When installed over a single oven or a warming drawer, allow at least 2" between the two openings. This separation will provide clearance for bottom overlap of the Advantium 240V and the other appliance overlaps.

Construct a solid oven floor of 3/8" min. thick plywood supported by 2 x 4 or 2 x 2 runners on all sides.

- the support must be level and rigidly mounted, flush with the bottom edge of the cutout.

- * For existing cutouts, a maximum width of 28-1/2" is acceptable. If the opening is slightly wider, secure a furring strip on each side of the cutout for securing the oven.

Note: Additional clearances between the cutouts may be required. Check to be sure the oven supports above the Warming Drawer location do not obstruct the required interior depth and height. See Warming Drawer installation instructions for details.

Installation over a GE/Monogram Oven and Warming Drawer:

- * For existing cutouts, a maximum width of 28-1/2" is acceptable. If the opening is slightly wider, secure a furring strip on each side of the cutout for securing the oven.

Note: Additional clearances between the cutouts may be required. Check to be sure the oven supports above the Warming Drawer location do not obstruct the required interior depth and height. See Warming Drawer installation instructions for details.

CAUTION: For personal safety, the mounting surface must be capable of supporting the cabinet load, in addition to the added weight of this approximate 80-pound oven and 30-pound drawer, plus additional oven loads of up to 50 pounds or a total weight of 160 pounds.

PSB9240SF

GE Profile™ Series 30 in. Single Wall Oven with Advantium® Technology

Features and Benefits

- Speedcook oven (240) - Enjoy oven-quality results two to eight times faster than a conventional oven
- Multiple cooking functions - Expand your cooking versatility with an all-in-one oven
- Halogen heat - Skip the preheating with nearly instantaneous halogen heat
- Over 175 preprogrammed menu selections - Preprogrammed selections make meals easy
- Custom recipe saver - Conveniently store cooking instructions for up to 30 different recipes
- Three-Speed, 300-CFM venting system
- Allows for use with JX2200/2201 storage drawer
- Model PSB9240SFSS - Stainless steel
