

Cimarron®

Toilet Tank Round-Front Touchless

K-5693

Features

- Flush is activated by a no-touch sensor mounted inside the tank.
- Powered by 4 AA batteries (included).
- When batteries are low, the unit will beep five times at half-second intervals when activated to indicate it's time to replace them.
- 1.28 gallons per flush (gpf).
- Combines with the K-4347 bowl to create a complete K-6419 Cimarron toilet.
- Coordinates with other products in the Cimarron collection.
- Touchless module projects a field through the top of the tank lid that senses your hand, causing the toilet to flush.
- Single-flush gravity uses the force of gravity and a precision-engineered tank, bowl, and trapway to create a strong siphon during flushing.
- AquaPiston canister allows water to flow into the bowl from all sides (360 degrees), increasing the power and effectiveness of the flush.
- Flush valve's 3:2 ratio harnesses the natural force of gravity and optimizes flush performance.
- Durable canister design has 90% less exposed seal material than a 3-inch flapper, for leak-free performance.

Water Conservation & Rebates

- WaterSense® toilets meet strict EPA flushing guidelines, including using at least 20 percent less water than 1.6-gallon toilets.
- Touchless has no impact on water usage.

Codes/Standards

ASME A112.19.2/CSA B45.1
DOE - Energy Policy Act 1992
EPA WaterSense®

KALLISTA® One-Year Limited Warranty
